CONTENTS

This Test Project proposal consists of the following documentation/files:

1. Text Doc: WSC2013_TP40_M1_actual_EN
2. WSC2013_TP40_M1_Folder containing:
 - a. image files: images
 - b. Font folder: Kristall Now Pro
 - c. Given text in file: TEXT_Module_Corporate_Design.rtf
 - d. QR Code in file: druckkunst.png
 - e. Bag Diecut in file: BAG_dieCUT.ai
 - f. Colour profile file: ISOcoated_v2_300_eci.icc, PSO_Uncoated_ISO12647_eci.icc

INTRODUCTION

From the lead typeface to the Apple Mac: 550 years of printing history at the Museum of Printing Arts Leipzig

The history of the “black art” is one of brilliant inventions, innovations rejected or developed and sudden radical change on a breathtaking scale. And yet it always remains a story about people. At the Leipzig Museum of Printing Arts, the human touch makes printing history come alive again: rare historical machines and printing presses are shown in action, enabling visitors to experience the art of printing with all their senses.

The museum’s collection of around 100 working machines and press for historical casting, composing and printing techniques really brings the history of printing alive combining a museum and an active workshop, visitors still can experience printing process first hand. The Museum of Printing Arts also houses a handcraft book bindery, a workshop of a wood engraving and a unique collection of more than 4,000 different typefaces from European and oriental provenance. The Museum of Printing Arts is based in the former industrial quarter Plagwitz in a listed industrial building that has been in continuous use as a printing house since the early 20th century.

Three **special exhibitions per year** focus on individual theme related to printing and all its various facets. The current exhibition, which runs until mid-May 2012 is entitled “From lithography to offset printing, the Kunstanstalt Carl Garte Leipzig and the collection of Hans Garte”. It shows extraordinary examples of multi-colour lithography and early examples of offset printing from the beginning of the twentieth century.

The Museum sees the future as lying in intelligent networking of print and Internet along the lines of “Augmented Reality” – with the difference that all the senses are addressed simultaneously at the Museum. When it comes to the media mix of the future, the Museum recommends occasionally taking a look back at the history of printing technology so as to understand the here and now better and actively use expertise from the past as a source of inspiration for the future.

DESCRIPTION OF PROJECT AND TASKS

The **Museum of Printing Arts** needs to build an identity that will be used consistently through all its documents. Your job is to create this corporate identity; with colours, photos and illustrations, typefaces, etc. This will be applied to several promotional items including a Letterhead and Business Card, Entry Ticket and Shopping Bag.

Throughout the whole project you should consider that the museum represents the art of letterpress printing. Due to this, some documents will be produced with this printing method. When you design remember some of the limitations of letterpress printing. Such as fine lines, large solids and halftone screens or the transparent quality of letterpress Ink.

Therefore the client asked for a clean and straight forward approach. The Design must be forward-looking and modern. Must explicitly be "not conservative."

Target audience

Individuals and families who are interested in history of the "black art" and related brilliant inventions.

Task 1: logo

The Museum of the Printing Arts needs you to create a logo for the Museum. The logo needs to embody the ideas of printing and all its various facets. From a historical, technical, handcraft view, up to the beginning of the twentieth century.

- The logo should have a compact shape.
- It should be possible to use it for both offset and letterpress printing.
- The logo must include the complete name "Museum of Printing Arts Leipzig".
- You must prepare the German version, too. "Museum für Druckkunst Leipzig". This version of the logo is the same design. This logo will be used in all the German language documents.
- The city name "Leipzig" is an important part of the Logo because of the existence of other similar museums in other cities.

Technical specifications:

Colours: Two versions of the same logo: a) 2 PMS colour b) CMYK

Include the name of the Pantone number with a colour swatch.

Text for two separate logos with the same design: English Logo: Museum of Printing Arts Leipzig
German Logo: Museum für Druckkunst Leipzig

Printing: Letterpress and offset printing

Trapping: 0.5 points

Images: Only vectorized images are allowed for the logo

You must deliver:

- 1 final folder of your working files for archiving
- 1 Illustrator (ai) file showing the English and the German logo in 2 PMS colours (Pantone Uncoated), as well as the English and the German logo in CMYK on the same Artboard (All 4 on same page)
- 1 PDF/X-3:2002 file of your logo in CMYK (NO SPOT COLOUR INCLUDED)
- 1 A4 printout, mounted on presentation board showing the two versions of the Logo (English and German) as well as the two colour Versions (PMS and CMYK). Display the used colour swatches in a colour chart.

Task 2: Letterhead and Business Card

Required elements for both – letterhead and business card:

Given text:

Stiftung Werkstattmuseum für Druckkunst
Nonnenstraße 38
D-04229 Leipzig
Tel. +49 341 / 231 62-0
Fax +49 341 / 231 62-10
info@druckkunst-museum.de
www.druckkunst-museum.de

Logo: German version only

Font: The museum owns the font family Kristall Grotesk. This font family must be used for the entire “given text” on the letterhead and business card.

Technical specifications LETTERHEAD:

Colours: CMYK
Trim size; A4 (297 X 210 mm)
Printing: offset printing
Bleed: 3 mm
ICC profile: PSO_Uncoated_ISO12647_eci.icc
Greyscale and colour images resolution: Only vectorized images are allowed for the letterhead

Technical specifications Business Card:

Trim size business card: 85 x 55 or 55 x 85 mm
Design: Both side (front and back)
Printing: Letterpress
Colours: 2 spot colours
Bleed: 3 mm
Trapping: 0.5 points
ICC profile: PSO_Uncoated_ISO12647_eci.icc
Bitmap, grayscale and colour image resolution: Only vectorized images are allowed for the Business Card

You must deliver:

- 1 Letterhead final composite PDF/X-3:2002 file (including bleed, crop marks and specified output profile)
- 1 Business Card final composite PDF/X-3:2002 file (including bleed, crop marks and specified output profile)
- The letterhead and business card trimmed and mounted onto a single presentation board.
- 1 A4 printout of your Business Card (front and back) with ONLY crop marks and bleed marks
- 1 A3 printout of your Letterhead with ONLY crop marks and bleed marks
- 2 final folders for archiving and printing (including PDF, native files, fonts,)

Task 3: Entry Ticket

Create a one colour, one-sided entry ticket to be given at the entrance to all visitors. The client would like to show a consistent design throughout all documents. Tradition and modernity are important. The given serial number needs to be included in part 1 and part 2 of the ticket.

Required elements

Given text :

Between technology and art
Experience type casting, type setting
and printing processes in a working museum
Nonnenstrasse 38, D- 04229 Leipzig
Phone +49 (0) 341-231 62 0
www.druckkunst-museum.de
Mon - Fri 10 -17, Sun 11 -17, closed Saturday

Serial number use : 247398

Logo: English version only (1 PMS colour)

Design: Single sided

Font: no specification

Serial number: To be on both parts of the ticket (on part 1 and part 2)

QR-Code:

minimum size: 20 x 20 mm, must be 100% colour

File: druckkunst.png

Technical specifications:

Printing: Letterpress

Colours: 1 PMS colour. Use Pantone uncoated numbers.

Bleed: 3 mm if needed

ICC profile: PSO_Uncoated_ISO12647_eci.icc

Trim size: 150 x 60 mm

Perforation: to be indicated with a straight vertical line 45 mm from the left

Images resolution: Only vectorized images are allowed for the Entry Ticket

You must deliver:

- 1 final composite PDF/X-4:2010 file (including: bleed, crop marks, and specified output profile). The perforation and serial number must be placed on a separate layer in the PDF file.
- 1 printout of your composition trimmed and mounted on 1 A4 board to present your design.
- 1 A4 printout of your Ticket with ONLY crop marks and bleed marks
- 1 final folder for archiving and printing (including PDF, native files, fonts)

Task 4: Shopping Bag

Create a full colour (CMYK), two-sided shopping bag for the museum shop. It's a redesign of an existing bag therefore, the size of the bag and die cuts are given. Due to the many international visitors the German and the English Logo version must be represented on the bag. The customer requires you to use a spot varnish on both versions of the Logo.

Required elements

Given text:

Between technology and art
www.druckkunst-museum.de

Logo: Both English **and** German Version with spot Varnish

The indication of the varnish must be named as "Varnish", as a spot colour and it must be 100% black

Font: no specification

Images: Minimum 2 images must be used, you are free to use more.

DieCut

You must use the given Die Cut "BAG_dieCUT.ai". An example of the printed bag will be given to each competitor.

Technical specifications:

Printing: offset

Colour: CMYK + spot varnish

Bleed: 3 mm

Trapping: 0.5 points

ICC profiles: ISOcoated_v2_300_eci.icc

Trim size: design on the given Die Cut.

Greyscale and colour image resolution: 262 to 350 PPI at 100% in the design (Layout)

Bitmap image resolution: 800 to 1200 PPI at 100% in the design (Layout)

You must deliver

- 1 final composite PDF/X-3:2002 file (including bleed, die cut and specified output profile, colour bars for CMYK + varnish at 100% black)
- 1 printout of your composition to fit on A3 with the varnish on top of the design (the varnish area needs to be 20% transparency)
- 1 printout of your composition to fit on A3 and mounted on one board for presentation without the varnish.
- 1 final folder for archiving and printing (including PDF, native files, fonts, linked images, ICC profile)

INSTRUCTIONS TO THE COMPETITOR

About image marking for all tasks:

The final resolution, colour mode and file formats of your images will be evaluated in the press ready PDF files. The JPG file format is NOT ACCEPTED for images files (outside of the PDF); only the following saving format files are acceptable: .tif / .eps / .ai / .png

Create a folder on your Desktop called YY_MOD_X (where YY represents the number of your workstation and X your Last Name). This folder must include the following subfolders "Task1, Task2, Task3, Task4". Those subfolders contain two folder with:

- Original folder: it should contain all the files used for the development of your project, properly organized (fonts, links, etc.).
- Final folder: it should contain all the files you are supposed to deliver to print as required in the tasks (PDF, etc.).

Any file saved out of its respective folder WILL NOT BE EVALUATED.

Images must **not** be embedded in Adobe Illustrator or InDesign

The colour mode and file formats of your images will be evaluated in the press ready PDF files; EXCEPT in Task 4 Greyscale and colour image resolution will be evaluated in the used software such as InDesign or Illustrator.

EQUIPMENT, MACHINERY, INSTALLATIONS AND MATERIALS REQUIRED

No specific equipment required.

MARKING SCHEME

A2		2,00
	Ideas and originality	1,00
	Understanding the target market	0,50
	Unity and relationship between all tasks	0,50
B2		8,00
	Logo inline with clients brief	1,00
	Quality of the visual composition of the Logo (aesthetic appeal and balance)	1,50
	Visual Impact & Communication effectiveness (Letterhead and Business Card)	1,00
	Visual Impact & Communication effectiveness (Ticket Design)	0,50
	Visual Impact & Communication effectiveness (Shopping Bag Design)	1,00
	Quality of the typography for all tasks	1,00
	Quality of the colours for all tasks	1,00
	Quality of the mounted presentations and the printouts	1,00
C2		4,00
	Resolution of images in Layout as specified in T1, T2, T3, T4	0,75
	Colour mode of the Logo as specified in all tasks	0,75
	Image or element dimensions as specified	0,75
	Final dimensions of layout as specified in task 2 and 3	0,50
	All required text is present in all task	0,50
	All required elements are present in task 2, 3 and 4	0,75
D2		2,00
	Mounting printouts on board for presentation	1,00
	Supply of printouts all tasks	1,00
E2		4,00
	Bleed value applied in PDF as specified in the task	0,75
	Trapping value applied in the file as specified in the task	0,75
	Overprinting applied in PDF as specified in the task	0,50
	Spot and CMYK colours used in PDF file as specified in the T1,T2,T3	1,00
	Color, varnish and dieCut in PDF as specified in task 4	0,50
	Naming of spot colour PMS U in T1, T2 and "Varnish" in task 4	0,50
F2		5,00
	Correct naming and all files saved in the correct format specified in the task	1,25
	ICC profile applied in PDF file as specified in the task	1,25
	Saving in a specified PDF format as required in the task	1,50
	Final production folder saved as required in the task	1,00

Total = 25 marks per module (Objective 15 + Subjective 10)
