The "Teas of the World" brand is over 300 years old and has a strong history associated with its company name. Our brand has created a dynasty where successors inherit the talent of their elders and follow in their footsteps. Aesthetics, elegance and the pursuit of perfection are our aims. Our blends expertly balance various teas and herb with sweet flavours.

Welcome a weary stranger or transport you to the bustling alleyways all around world.

The Sensorial Tea range is an innovation in terms of taste and blend. These teas are guaranteed to be 100% organic.

Instructions

Rinse pot with boiling water to bring out the tea's flavour. 1. Add loose tea according to your strength preference. 2. Add 3 teaspoons of sugar for a more traditional taste. 3. Pour in boiling water and leave for 2 – 3 mins. 4. Drink this tea without milk. 5. Stop what you are doing and savour the moment.

Use fresh water. Water left in the kettle loses vitality and makes the tea flavour not as vibrant.
