DESCRIPTION OF PROJECT AND TASKS

You are required to create:

1. A logo for the “Sensorial Tea” line of products
2. An outer cardboard package that contains the three tea varieties inside
3. Three labels (stickers) — One for each of the tea varieties

Task 1: Logo Creation

You are required to create a logo for the tea range: “Sensorial Tea” (capital or lower-case according to your design). The name must be clear and readable. The proposed design should be adaptable to different blends of tea. You must use the text in Appendix 1.1

Technical Specifications:

- Trapping: 0.1 mm (if necessary)
- Printing: Offset
- Native File format: EPS or AI
- File creation: Vector only
- Colours:
 - One version in 2 x Pantone Uncoated Colours
 - One version in CMYK

Electronic Files:

In a folder named Logo:

- One native version of the Pantone logo
- One PDF version of the Pantone logo
- One native version of the CMYK logo
- One PDF version of the CMYK logo

Printed Files:

- The Pantone logo and the CMYK logo will be printed on an A4 sheet side-by-side (each logo to be no larger than 14cm in it's largest dimension)

Task 2: Cardboard Package

The design of the package should convey an ecological and natural feel. You must use at least two or more of the images provided in Appendix 2.3. You may manipulate the images according to your design. You may create any other elements not supplied. You must create a working die-line for the package, which will be large enough to contain the three supplied clear plastic bags of tea. You must use all text in Appendix 2.1 and all files in Appendix 2.2. Your die-cut should be fully functional and practical and indicate all glue, cut and fold lines.

Technical specifications:

- Stock: Uncoated card 230gsm in SRA3 size
- Bleed (if necessary): 3 mm
- Colours: CMYK + Die-line plate
- Image resolution: 250 - 300dpi placed at 100%
- ICC Profile for images:
 - CMYK: Uncoated FOGRA29 (ISO 12647-2:2004)
- Glue: You may use a maximum of 3 glue areas
- Window: Optional according to your design
- Ink Density: CMYK Maximum of 350%
- PDF File Format: PDF/X-4:2008
- Native File format: INDD, EPS or AI
- Raster images: tiff, psd or eps for raster images. Note: you MUST NOT embed the raster files

Packaging elements — All elements must be included in your package design:

- Logos to be included (These can be found in Appendix 2.2):
 - Teas of the world (to be used at least once in the design, but you may use it more than once)
 - Sensorial Tea (to be used at least once in the design, but you may use it more than once)
 - PEFC
 - FSC
 - Recycle
- EAN 13 bar code in 100% black and 30mm wide
- All Supplied text
- At least two of the provided images

Electronic Files:

In a folder named Package:

- 1 print ready PDF/X-4:2008 including ICC profile, die-line, bleed, colour bars and registration marks
- All working files

Printed Files:

- 1 colour printout cut and folded for presentation assembled in 3D (Printed at 100% on SRA3)
- 1 colour printout mounted on the board provided (including the die-line) (Printed at 100% on SRA3)

Task 3: Labels (Stickers)

The design of the three labels (stickers) should convey an ecological and natural feel. You must use at least one of the images provided on the label design from Appendix 2.3. You may manipulate the images according to your design. You must include the Sensorial Tea Logo and The Teas of the World Logo. You may create any other elements not supplied. You must create the die-line for the labels. You must use all text in Appendix 3.1

Technical specifications:

- Size: Each label must not exceed a maximum size of 50mm x 50mm plus bleed
- Stock: White uncoated sticker (adhesive) paper 150gsm in A4 size
- Bleed (if necessary): 3 mm
- Trapping (if necessary): 0.1 mm
- Colours: 2 x Pantone Uncoated Colour Logo + CMYK for all other elements + Die-line plate
- Die-line: may be the same shape or a different shape for each label,
- Image resolution: 250 - 300dpi placed at 100%
- ICC Profile for images:
 - CMYK: Uncoated FOGRA29 (ISO 12647-2:2004)
- Ink Density: CMYK Maximum of 350%
- PDF File Format: PDF/X-4:2008
- Native File format: INDD, EPS or AI
- Raster images: tiff, psd or eps for raster images. Note: you MUST NOT embed the raster files

Label elements — All elements must be included in your label design:

- Logos to be included:
 - Teas of the world logo for each label (supplied) (to be used at least once in each design, but you may use it more than once)
 - Sensorial Tea logo for each label (to be used at least once in the design, but you may use it more than once)
- All Supplied text as per Appendix 3.1 text file, one section of text for each label design

Electronic Files:

In a folder named Labels:

- 3 Print ready PDF/X-4:2008 files including die-line, bleed, colour bars and registration marks (one for each design)
- 1 A4 PDF that displays all three designs on the one page
- All working files

Printed Files:

- 1 colour printout, cut and stuck onto the plastic bags for presentation and inserted into the 3D package (All three designs printed on one A4 sheet)
- 1 colour printout mounted on the board provided (including the die-line and all three designs with bleed printed on one A4 sheet)

When Printing:

To avoid confusion between the candidates include your competitor number in the upper right corner of your print sheet

The "Teas of the World" brand is over 300 years old and has a strong history associated with its company name. Our brand has created a dynasty where successors inherit the talent of their elders and follow in their footsteps. Aesthetics, elegance and the pursuit of perfection are our aims. Our blends expertly balance various teas and herbs with sweet flavours. Welcome a weary stranger or transport you to the bustling alleyways all around world.

The Sensorial Tea range is an innovation in terms of taste and blend. These teas are guaranteed to be 100% organic.

Instructions

Rinse pot with boiling water to bring out the tea's flavour. 1. Add loose tea according to your strength preference. 2. Add 3 teaspoons of sugar for a more traditional taste. 3. Pour in boiling water and leave for 2 – 3 mins. 4. Drink this tea without milk. 5. Stop what you are doing and savour the moment.

Use fresh water. Water left in the kettle loses vitality and makes the tea flavour not as vibrant.
