Project Description and Tasks

This module consists of 3 tasks that you have to do. You are **not allowed** to do outside the time limit that has been given.

Briefing of the Project

Brand Name : senyap
Brand Slogan : teman di ujung hari

Introduction

Our minds keep racing, even when our bodies ask to stop. Notifications, deadlines, and the city's hustle create a constant 'noise' that creeps into the bedroom. Rest becomes restless, not restorative.

'senyap' was born from a simple need: a pause. A moment to turn off all that 'noise' and rediscover tranquility. We believe the best rest begins not when the eyes close, but when the mind is allowed to become silent.

This journey begins with the very foundation of rest. 'senyap' introduces its first product, an ergonomic pillow, thoughtfully engineered to provide the physical comfort needed for the mind to truly be at peace.

The goal of the 'senyap' brand is to provide products designed to help you create a personal 'senyap' ritual every night. We want to position rest not as the end of a busy day, but as a peaceful start for tomorrow.

Description of the Project

Your task as a designer is to create a strong and cohesive visual identity for the **senyap** brand. This identity must be able to represent the brand's values (calm, modern, warm, and trustworthy) and be easily remembered by the audience.

Target Audience
