Introduction

Art House Letterpress and Paper is a letterpress printing company in Kazan, Tatarstan, Russia.

They began as a small company only a few years ago and have quickly become a leading printer in Russia. They specialise in letterpress, foil stamping, hand-made paper and paper accessories.

They print manually using original letterpress printers and put their craftsmanship and love into each print, making each work a small work of art.

They are very serious about design and have their own style of work. This makes their products sophisticated, refined and inspired.

As well as having a large number of clients in Russia, they are also well known by wedding agencies and designers from Italy, Georgia, Holland, England and Switzerland.

Description of project and tasks

As **Art House Letterpress and Paper** continue to grow their business, they want to redesign their corporate identity to reflect their heritage.

The *Zilant* is the official symbol of Kazan. It is a legendary creature that has the head of a dragon, the body of a bird, the legs of a chicken, the tail of a snake, the ears of a canine, red wings, sharp teeth, dark-grey feathers and scaly dark-grey skin.

Their new brand must incorporate a modern version of the *Zilant* and represent the *constructivism* design style. The designs will include English and Russian text.

The designs must be able to be printed by letterpress printing. No raster elements will be used (vector and fonts only).

Additional background information:

The Tatarstan national flower is the Schrenck's Tulip (*Tulipa suaveolens*) and the national tree is the Tatarian Maple (*Acer tataricum*). The name Kazan is thought to have come from the word *qazan* which means *cauldron* (or boiler). There are many stories about the origin of the name which are related to the cauldron.

Demographics:

- Gender: Male (30%) and Female (70%)
- Age: 20-30 years old
- Location: Europe (with an emphasis on Western Europe)
- Income: Middle (20%) to high (80%)
- Other: They appreciate design, art, vintage style and hand-made items.

Tasks:

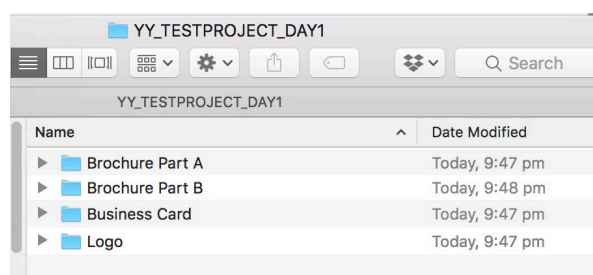

- Logo
- Business Card
- Brochure: Part A (Print) and Part B (Interactive)

Instructions to the Competitor

Create a folder on your desktop called **YY_TESTPROJECT_DAY1** (where YY represents the number of your workstation). All final and working files must be included in this folder.

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork).

This folder structure will be as follows:

Task 1: Logo

Concept

The logo must incorporate a modern version of the *Zilant* and also represent the *constructivism* design style.

You will create one version in English and one version in Russian. Each logo must include the same vector elements and look as similar (matching) as possible.

Art House Letterpress and Paper is a project that has transformed from a small workshop in a few years into one of the leading printing houses in Russia, specializing in letterpress, foil stamping, hand-made paper and exclusive accessories.

We print in the old-fashioned way using unique letterpress technology using vintage printing presses on thick French paper made of 100% cotton, manually putting our craftsmanship and love into each print, making each work a small work of art.

Дом Искусства Высокая печать и Бумага - это проект, который из небольшой мастерской за считанные годы превратился в один из ведущих печатных домов в России, специализирующийся на высокой печати, тиснении фольгой, изготовлении бумаги ручного отлива и эксклюзивных аксессуаров.

Мы печатаем старомодным способом по уникальной технологии letterpress используя старинные печатные прессы, на толстой французской бумаге из 100% хлопка, вручную вкладывая в каждый оттиск своё мастерство и любовь, делая каждую работу маленьким произведением искусства.

Pages 4 and 5

When creating our work, we are very serious about design, the little things and our own style of work. It is this powerful combination — design and letterpress that make our products sophisticated, refined and inspired.

Our range includes postcards, invitations, gift tags, designer envelopes, hand-made paper, books of love and fidelity, wax stamps and accessories for them.

In addition to ready-made solutions, we are developing an exclusive design for invitations, cards and tags, both for companies and for people who appreciate the aesthetic beauty, style and luxury of letterpress.

Today we work not only in Russia, we were highly appreciated by wedding agencies and designers from Italy, Georgia, Holland, England and Switzerland. We are sure that the list of countries will only expand, and our professionalism will grow.

При создании наших работ мы очень серьезно подходим к дизайну, к мелочам и собственному стилю в работе. Именно эта мощная комбинация - дизайн и высокая печать делают наши продукты изысканными, утонченными и наполненными вдохновением.

Наш ассортимент включает в себя открытки, пригласительные, подарочные бирки, дизайнерские конверты, бумагу ручного отлива, книги любви и верности, сургучные штампы и аксессуары к ним.

Помимо готовых решений мы разрабатываем эксклюзивный дизайн пригласительных, открыток и бирок, как для компаний, так и для людей, которые ценят эстетическую красоту, стиль и роскошь высокой печати.

Сегодня мы работаем не только в России, нас высоко оценили свадебные агентства и дизайнеры из Италии, Грузии, Голландии, Англии и Швейцарии. Уверены что список стран будет только расширяться, а наш профессионализм расти.

Pages 6 and 7

Letterpress, or as it is customary to say, high print in Russia, is one of the most beautiful, highly artistic types of printing with a centuries-old history, which is a timeless classic and leads to delight, both visual and tactile.

Letterpress is the earliest form of printed language with a thousand-year history, which was used by the discoverer of book printing Gutenberg, which influenced the further development of the craft.

Unfortunately, with the advent of modern automated printing machines, this type of unique printing began to disappear.

At Art House Letterpress and Paper, we are the custodians of the knowledge of this craft, the knowledge that we bit by bit restored and gathered around the world to master this skill.

Heavy print presses are not just machines for us - they are our helpers, colleagues and friends. So, for example, the oldest printed press, which we brought from Germany and carefully restored, turned 120 years old in 2018.

Типографская или как принято говорить у нас в России высокая печать - это один из самых прекрасных, высокохудожественных видов печати с многовековой историей, которая является вневременной классикой и приводит к восторгу, как визуальному, так и к тактильному.

Высокая печать - самая ранняя форма печатного языка с тысячелетней историей, которую использовал первооткрыватель книжной печати Гутенберг, что и повлияло на дальнейшее развитие ремесла. К сожалению с появлением современных автоматизированных полиграфических машин данный вид уникальной печати стал исчезать.

В Доме Искусства Высокая печать и Бумага мы являемся хранителями знаний данного ремесла, знаний, которые мы по крупицам восстанавливали и собирали по всему миру, что бы овладеть данным мастерством.

Тяжелые печатные прессы для нас не просто машины - это наши помощники, коллеги и друзья. Так например самому взрослому печатному прессу, который мы привезли из Германии и бережно восстановили, в 2018 году исполнилось 120 лет.
