- Appendix 1.2 – Images
supplied on competitor desktop in folder called: WSC2019_TP40_Day2_CompetitorFiles
- Appendix 1.3 – Barcode
supplied on competitor desktop in folder called: WSC2019_TP40_Day2_CompetitorFiles
- Appendix 1.4 - Label Text
supplied on competitor desktop in folder called: WSC2019_TP40_Day2_CompetitorFiles

Introduction

Mongolia is one of the few countries that officially supports traditional medicine.

In 1330, a Mongolian physician published a book called *Important Principles of Food and Drink*. It was the first book of its kind. He discussed the importance of a balanced diet with a focus on moderation.

Self Created is a Mongolian company that makes traditional medicine. The ingredients used are a range of modern herbs and ones that have been used for hundreds (and thousands) of years.

They believe in the power of combining scientific research with history.

Their logo symbol is the **Soyombo** (meaning: self created), which is also the symbol of Mongolia and appears on the country's flag.

Mongolia az egyike azon országoknak, amelyek támogatják a tradicionális orvoslást.

1330-ban egy mongol gyógyító megírt egy könyvet *Az etel és ital fontos szabályai* címmel. Ez volt az első ilyen könyv. A kiegyensúlyozott étrend fontosságát hangsúlyozta a mértékletesség hangsúlyozásával.

A **Self Created** egy mongol cég, amely tradicionális gyógyszereket gyárt. Az összetevők modern gyógynövények és olyanok is, amelyeket több száz (vagy ezer) éve használnak.

Hisznek a tudományos kutatás és a történelem kombinálásában.

A logójuk a **Soyombo**, ami egyben Mongólia szimbóluma is és megjelenik az Ország zászlajában is.

Description of project and tasks

Mongolia's capital city of Ulaanbaatar has the second highest fine particle pollution of any city in the world.

Poor air quality is also the largest occupational hazard, as over two-thirds of occupational disease in Mongolia is dust induced chronic bronchitis or pneumoconiosis.

Self Created are launching a medicinal liquid product called **Breathe Easy** which has been created to help cure these diseases.

The most important ingredients are three herbs:

- Pasque Flower (*Pulsatilla ambigua*)
- Common Nettle (*Urtica dioica*)
- Thyme (*Thymus vulgaris*)

Self Created are also launching this product throughout Asia and will include English and Chinese text on their designs.

Ease of use considered should be considered when designing the products for the demographic. They also want to use a cool colour palette.

Mongolia fővárosának Ulanbatornak a második legmagasabb a finom por szennyezettsége az egész világon. A rossz levegőtartalom szintén a legnagyobb munkakörülmény is, mivel Mongóliában a munkakörülmények megbetegedések kétharmada por által okozott krónikus bronchitis vagy pneumoconiosis.

A **Self Created** egy gyógyászati szirupot bocsát ki, a neve **Breathe Easy**, amely ezen betegségeknek a gyógyítására szolgál.

A legfontosabb összetevő három gyógynövény:

- Kokorcsin
- Közönséges csalán
- Kakukkfű

A Self Created Ázsiában is ki fogja adni a terméket, angol és kínai szöveggel. A használat megkönnyítésének érdekében ajánlott figyelembe venni a tervezés során a demográfiai célcsoport. Ezen kívül hideg színeket szeretnének vizsgálni a színpalettán.

Demographics:

- Gender: Male (90%) and Female (10%)
- Age: 55+ years old
- Location: Asia
- Income: low (100%)
- Other: have worked in highly polluted areas for an extended period of time (most of their life), likely to be trades people (working in harsh outside conditions).

Célcsoport:

Nem: férfi (90%), nő (10%)

Kor: 55 +

Lakóhely: Ázsia

Jövedelem: alacsony

Egyéb: hosszú ideig magas szennyezett környezetben dolgoztak (életük nagy részében); többnyire kereskedő/ipari emberek.

Tasks:

- Package design
- Label design for 100ml brown glass bottle (to go inside the package)

Instructions to the Competitor

Create a folder on your desktop called **YY_TESTPROJECT_DAY2** (where YY represents the number of your workstation). All final and packaged files must be included in this folder.

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be outside of the artwork).

This folder structure will be as follows:

Task 1: Package

Concept

The package shape and design is up to you. It must be able to fit a 100ml brown glass bottle inside.

Specifications

Type and Image

The package must include the following:

- Logo in Appendix 1.0 – Logo (you may change the colour of the logo)
- All text from Appendix 1.1 – Package Text
- You can choose if you want to use any images from Appendix 1.2 – Images (not mandatory)
- Barcode in 100% black at a minimum of 30mm wide from Appendix 1.3 – Barcode

Size

- Maximum 420x297mm (including bleed)

Dieline

- 0.5pt
- Separate layer called: Cut lines
- Spot colour for cut lines called: Cut lines (any colour)
- Separate layer called: Fold lines
- Spot colour for fold lines called: Fold lines (any colour)
- Separate layer called: Glue dots
- Spot colour for glue dots lines called: Glue dots (any colour, indicated by dots, not lines)

Colour

- CMYK + 2 x PMS C colours

Bleed

- 2.5mm (exactly)

File Type

- Package: AI or INDD — without outlined text
- Package: PDF/X-4:2008 — without outlined text
- Raster images: .tiff, .psd, .dsc, .eps
- Vector images: .ai, .eps

Resolution

- Raster images: 350dpi (placed at 100% in Illustrator or InDesign)

Naming:

Note: YY represents your competitor number

Folder name: Package

- Package file name:
YY_Self_Created_Package.ai
OR
YY_Self_Created_Package.indd
- Package file name: YY_Self_Created_Package.pdf

You must deliver

Prints

- 1 x colour mock up, folded and stuck together at actual size (100%), printed on SRA3 card stock.
- 1 x colour printout, reduced to fit on A3 with bleed, dieline, colour bars and registration marks. Ensure that you include your competitor number of the front, outside the artwork area.

Files

- 1 x PDF file with bleed, dieline, colour bars and registration marks
- 1 x INDD file or 1 x AI file
- *You must include a packaged Adobe InDesign or Illustrator folder for submission that includes all fonts and links used.*
- *You may include any working files in a separate folder called: Working files*

Task 2: Label

Concept

The label shape and design is up to you.

It must be able to fit on a 100ml brown glass bottle and inside the package you have designed.

Specifications

Type and Image

The label must include the following:

- Logo in Appendix 1.0 – Logo (you may change the colour of the logo)
- All text from Appendix 1.4 – Label Text
- You can choose if you want to use any images from Appendix 1.2 – Images (not mandatory)

Size

- Maximum 148x105mm (including bleed)

Dieline

- 0.50pt
- Spot colour called: Dieline
- Separate layer called: Dieline
- Cuts only

Colour

- CMYK + 2 x PMS C colours

Bleed

- 3.0mm (exactly)

File Type

- Package: AI or INDD — without outlined text
- Package: PDF/X-4:2008 — without outlined text
- Raster images: .tiff, .psd, .dsc, .eps
- Vector images: .ai, .eps

Resolution

- Raster images: 400dpi (placed at 100% in Illustrator or InDesign)

Naming:

Note: YY represents your competitor number

Folder name: Label

- Package file name:
YY_Self_Created_Label.ai
OR
YY_Self_Created_Label.indd
- Package file name: YY_Self_Created_Label.pdf

You must deliver

Mounting and Prints

- 1 x colour print of the label at 100% (actual size) with bleed, dieline, colour bars and registration marks. Mounted on A4 board. Ensure that you include your competitor number on the front of the board, outside of the design area.
- 1 x colour print, trimmed to 100% (actual size). Printed on label stock.

Files

- 1 x PDF file with bleed, dieline, colour bars and registration marks
- 1 x INDD file or 1 x AI file
- *You must include a packaged Adobe InDesign or Illustrator folder for submission that includes all fonts and links used.*
- *You may include any working files in a separate folder called: Working files*

Marking Summary

The Marking Summary will be either provided during the briefing session on C2 or at your workstation.

Appendix 1.1 Package Text

Note: Text to be included in package is **Blue in colour**
The black text is not to be included (they are instructions)

The package must include the following text:

Breathe Easy

Traditional medicine

With Pasque Flower, Thyme and Common Nettle

100ml

To help cure diseases related to polluted air

Self Created — combining scientific research with history

放轻松

传统药物

与Pasque花，百里香和共同的荨麻

100毫升

帮助治疗与污染空气有关的疾病

自创 - 将科学研究与历史相结合

Instructions

6–12 years

5ml

2 x per day

12+ years

10ml

2 x times per day

Do not exceed the recommended dosage.

Do not use in children under 6 years of age

说明

6-12岁

5毫升

每天2 x

12年以上

10毫升

每天2次

不要超过推荐剂量。

不要在6岁以下的儿童使用

Ingredients

Each 10ml of oral liquid contains:

Active Ingredients: Pasque Flower (*Pulsatilla ambigua*) 800mg, Common Nettle (*Urtica dioica*) 300mg, • Thyme (*Thymus vulgaris*) 200mg, Dextromethorphan Hydrobromide monohydrate 30mg

Also contains Sodium benzoate, Saccharin sodium, Glucose (from wheat), Fructose, Maltose and Alcohol (1.5%).

配料

每10ml口服液含有：

有效成分：白头翁（*Pulsatilla ambigua*）800mg，普通荨麻（异荨麻）300mg，•百里香（*Thymus vulgaris*）200mg，氢溴酸右美沙芬一水合物30mg

还含有苯甲酸钠，糖精钠，葡萄糖（来自小麦），果糖，麦芽糖和酒精（1.5%）。

Use within six months of opening

在开业后六个月内使用

Appendix 1.3 Label Text

Note: Text to be included in label is **Blue in colour**

The black text is not to be included (they are instructions)

The label must include the following text:

Breathe Easy

Traditional medicine

With Pasque Flower, Thyme and Common Nettle

100ml

To help cure diseases related to polluted air

Self Created — combining scientific research with history

放轻松

传统药物

与Pasque花，百里香和共同的荨麻

100毫升

帮助治疗与污染空气有关的疾病

自创 - 将科学研究与历史相结合
