Briefing of the project

Introduction

Name of the TP: SILK IN LYON, Festival de la soie

About the event

The 2025 “**SILK IN LYON, Festival de la soie**” (November 21–24, at Lyon) is an event open to everyone. It delves into the global importance of silk, covering aspects from its traditional origins to the challenges of the modern industry and craftsmanship. This year, the event will feature Brazil’s Parana region with 30 exhibitors presenting their products. Attendees can enjoy a rich program that includes workshops, tours, conferences, exhibitions, performances, and off-site events.

Vision

The vision of the 2024 “SILK IN LYON, Festival de la soie” is to serve as a global platform celebrating the cultural richness and innovation of silk.

Mission

The 2024 “SILK IN LYON, Festival de la soie” is dedicated to providing an immersive and educational experience centred around the beauty, history, and versatility of silk. The festival’s extensive array of interactive workshops, informative tours, engaging conferences, captivating exhibitions, dynamic performances, and diverse off-site events is designed to foster connections between participants and the artistry, innovation, and cultural importance of silk.

Description of the project

WHAT: Create an illustration to be printed on a silk fabric and design a promotional poster for the "SILK IN LYON, Festival de la soie".

WHY: This project aims to visually communicate the rich tradition and innovation of silk, and to capture the essence of this year's theme "From Brazil to Lyon".

HOW: The designs should be visually compelling and reflect the festival's theme; simultaneously, the poster must clearly convey the event information.

Target audience

The target audience for the SILK-FESTIVAL "SILK IN LYON, Festival de la soie" encompasses a diverse group of individuals who share an interest in silk, textiles, history, and cultural experiences. With the following figures in mind:

- 8,000 visitors expected over four days: This indicates a significant turnout, attracting individuals from various demographics, including locals, tourists, enthusiasts, students, families, and professionals.
- 30 exhibitors: These exhibitors likely represent a range of industries and specialties related to silk, including textile manufacturers, designers, artisans, historians, and educators.

Concepts

The SILK-FESTIVAL organisers would like the following themes to be incorporated into the brand elements (such as colour, typography, etc.):

- Heritage & innovation: emphasising traditional and modern techniques in production
- Artistry: celebrating the craftsmanship and creativity
- Elegance: showcasing the luxurious and refined qualities
- Culture: the representation of different cultures and tradition

Task to perform

Task 1: Design and contouring (Crimping) >> 2 hours

Conceptualise your design Consider the colours you will use and how they will be separated by outlines.

Choose a thematic inspiration based on the theme "From Brazil to Lyon" that resonates with the visual message you intend to convey, keeping in mind how colours interact with and contrast against each other.

Ensure each shape is closed so that they can be individually filled with colour later (Task 2). These paths will become the outlines that delimit each colour area. The outlining for colour delimitation we call Crimping

Task 2: Create your colourful Design >> 2,5 hours

The next steps involve adding colour, preparing for screen creation, and actual printing.

Task 3: Design a Poster >> 1,5 hours

For the upcoming Silk in Lyon event, taking place from November 21 to 24, 2024, at the Palais de la Bourse in Lyon, create a poster that highlights Brazil, the festival's country of honour, and its profound impact on the event through its vibrant culture and colours.

Task 1

Present design of the contouring within two hours after the competition starts.

Create: Design and contouring (Crimping)

Crimping : Outlines for Colour Delimitation

Theme for your Design: "From Brazil to Lyon"

Create a conceptual design that translates the theme into a visually appealing pattern or illustration suitable for a printed silk square. This concept should reflect the elegance and richness of the silk tradition, incorporating elements that symbolise the connection between Brazil and Lyon.

Crimping, or outlining, is the first crucial step in screen printing on silk. This ensures precise colour separation and maintains detail accuracy, guides screen creation for each colour, and upholds the aesthetic quality and clarity of the final product.

The design for the fabric includes detailed drawings and shapes. Plan each element in the design carefully to ensure it aligns with the envisioned aesthetic. Organise different parts of your design into layers to keep your work organised. This helps in isolating areas for applying different colours later.

Conceptualise your design Consider the colours you will use later in Task 2 and how they will be separated by outlines.

Choose a thematic inspiration based on the theme "From Brazil to Lyon" that resonates with the visual message you intend to convey, keeping in mind how colours interact with and contrast against each other.

Ensure each shape is closed so that they can be individually filled with colour later (Task 2). These paths will become the outlines that delimit each colour area.

Produce: Technical specifications

- Contour colour: 100% black
- Organise different parts of the contours into layers to keep your work organised
- Image: only vector
- Stroke: At least 3 pt
- Document size: 70 × 70 cm
- ICC profile: Coated GRACoL 2006 (ISO 12647-2:2004)

Provide

Digital

- Save your design in Adobe Illustrator
- Copy the digital document for assessment into the "File to Assess" folder specified in the briefing within 120 min. after the start of the competition.
- 1 x PDF/X-4 (PDF1.7) use only Trim Marks with 0.5 pt and colour conversion to Coated GRACol 2006

Print

- Print and cut to 40% of original format (70 x 70 cm = 100%): Include your competitor number in the corner of the printout.

Present

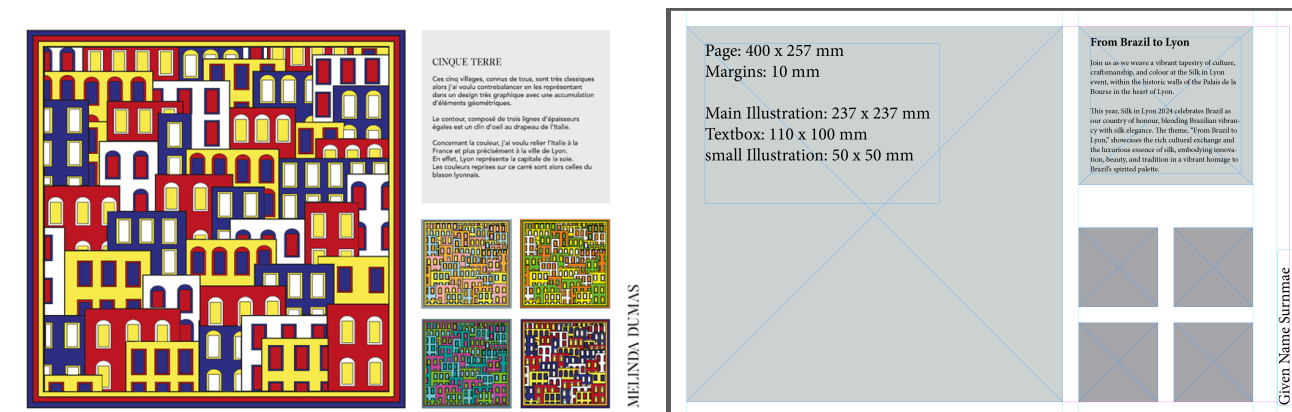

Display your print on the presentation wall **within two hours (120 minutes) after the competition starts**. You are free to use any paper format you like.

Task 2

Create: Refining the Design with colour

After completing the crimping of your design, which sets the foundation for precise colour separation and clarity in screen printing, the next steps involve adding colour, preparing for screen creation, and actual printing.

Requirement

Requirements for Silk Fabric

Now choose and apply five colours within the outlined areas of your design, adjusting as needed for clarity and aesthetic appeal. Your colour choice should reflect the Theme and the following keywords: summer, warm, vibrant, Silk. Refer also to the mood board in Appendix_01 Mood-Board

Finalise Design and review your coloured design for any adjustments, ensuring alignment with your vision, and convert it to CMYK colour mode for screen printing.

Requirements for client presentation board

Four different colour variations must be proposed. Each variation should feature a different colour as main colour, the other colours used can be featured across multiple variations.

Pick one of the four (4) colour variations as your favourite and feature this main illustration in larger size. Arrange all variations along with the information provided below (refer to the sketch).

Produce: Technical Specifications of the fabric

The silk fabric

- Colour: Six (6) maximum – including black – no gradients, only solid colours (100% tint)
- CMYK – no spot colour
- All drawings and shapes must have a crimp (outline to delimit each colour)
- Format of fabric: 70 × 70 cm – including the 5 mm thick border. Please refer to the example within the Presentation Board on the next page.

Client presentation Board

- Layout and format of 400 x 257 mm, margins: 10 mm, main illustration: 237 x 237 mm, textbox: 110 x 100 mm, small illustration: 50 x 50 mm
- Text in Appendix 02: Appendix_02 Text
- Choose an appropriate Font to your Design
- Display your given name and surname on the right side from bottom to top.
- NOTE: feature your main illustration/design in larger size

Provide

Digital

- 4 x Adobe Illustrator document - Four colour variations must be proposed. Save them as four different Adobe Illustrator files.
- 1 x A3 PDF of the Presentation Board: PDF/X-4:2010 with Crop Marks and Colour Bars. No Bleed

Print

- 1 × Print of your Presentation Board scale to fit A3 paper size together with only crop marks. Include your competitor number in the corner of the printout.

Present

Print your 70 × 70 cm Main-Fabric Design scale to A2 paper size (on two A3 sheets). Cut the resulting Fabric Design proportionally and present it on the blackboard.

Task 3

Create: Poster for "Silk in Lyon"

For the upcoming Silk in Lyon event, taking place from November 21 to 24, 2024, at the Palais de la Bourse in Lyon, create a poster that highlights Brazil, the festival's country of honour, and its profound impact on the event through its vibrant culture and colours.

Requirements: Your Poster Design must display

>> Your Main Design from Task 2

>> Display five partner logos and 3 social network logos: Appendix_03_Logos:

- Logo_Métropole_Lyon
- Logo_Ville de Lyon
- Logo_Auvergne-Rhône-Alpes
- Logo_unitex-opengraph
- Logo_FrenchTEX

Produce: Technical Specifications

- Canvas size: 500 mm (width) × 700 mm (height)
- Colour: CMYK
- Bleed: 3 mm
- Image file format: ONLY VECTOR
- Software: InDesign or Illustrator
- ICC profile: Uncoated FOGRA29 (ISO 12647-2:2004)

Provide

Digital

- 1 × PDF/X-4:2010 compliant PDF (original size) with the artwork, bleed data (no bleed marks), trim marks, colour bars for CMYK, and PDF layers intact. Include your competitor number in a corner of the PDF, outside of the artwork and bleed area. Named YY_Poster.pdf (case-sensitive, YY represents your competitor number).
- 1 x A4 Size jpg-File in RGB colour to discuss with the client. No print marks!
- Final production Folder: Collected folder for print with 1 x INDD, 1 x PDF/X-3:2002, Links (no Fonts and IDML)

Print

- 1 × printout Poster scale to fit on A3. Include your competitor number in the corner of the printout.

Instructions to the Competitor

Document Management

Digital Data on your Computer

Create a folder on your desktop called YY_Name-of-TP_DAY_Z , where YY represents the number of your workstation. "Name of TP" represents one of the 4 Test Projects (e.g. Illustration, Packaging,...) and Z the day of competition (1 to 4). The name of the folder does not contain any blanks.

All working, final and packaged files must be included in this folder. There is no other File or Folder on your Desktop.

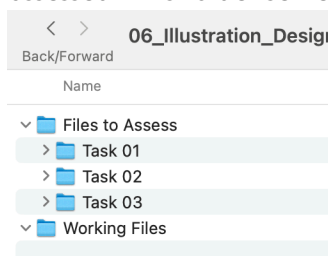

e.g.: 06_Illustration_Design_DAY1.

(example for workstation nr. 06 on the first Competition Day)

Files to Assess >> All final and packaged files must be included in the specific "Task n" folder.

e. g.: Task 01, Task 02, Task 03

Working files >> The content of this Folder is up to you. Files and documents in this folder will not be assessed. This folder serves as data storage and to provide a tidy structure in the other folders.

Time Limit

Task 1 must be handed in within 120 minutes. The total time limit for this test project will be 6 hours.

Printout

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork).

Marking Scheme

The Mark Summary Form will be either provided during the briefing session on C1 or at your workstation.

Appendix

This Test Project paper will be printed out. To prevent too many pages from being printed, we do not list all appendix documents here. You will find them in the folder on your desktop.
