Briefing of the project

Introduction

Overview: Salewa pure mountain. Engineered in the Dolomites

Salewa stands for the passion for mountain sports, for ambitious alpinism and for special mountain experiences. Founded in 1935 in Munich, the family-owned brand has set its roots in the South Tyrolean Dolomites.

The brand's ambition to open new paths and leave its own traces is expressed in its understanding of mountain sports. Progressive mountaineering does not only describe performance, it is also about feeling nature, personal development, and community experience. Every generation defines / shapes a new form to mountain sports. Salewa is inspired by this evolution and helps to shape it – as one of the leading international manufacturers of mountaineering equipment with an international team, creating pioneering products for mountaineers: clothing, shoes, equipment, and technical hardware.

Description of the project

Salewa aims to reintroduce hemp, an ancient raw material, in a novel and innovative manner to its customers. This project focuses on highlighting and communicating the exceptional capabilities and outstanding strengths of hemp as a resource.

The ultimate goal, however, is to promote and increase sales of clothing and products made from this sustainable material. By doing so, Salewa seeks not only to educate its audience about the benefits and versatility of hemp but also to solidify its position as a leader in innovative, eco-friendly consumer products.

WHAT: Design a comprehensive Booklet consisting of 24 content pages plus 6 cover pages (four pages plus flap). The Booklet should serve as both an informative and persuasive tool, enhancing brand recognition and consumer understanding of hemp's unique properties and Salewa's market position. The Booklet should effectively showcase the Alpine Hemp Technology of Salewa.

WHY: The purpose of this Booklet is to highlight the innovative use of Alpine Hemp and explaining WHY Alpine Hemp is an advantage for the user and the nature. Increase sales of Hemp Products in Salewa.

HOW: Through this Booklet, Competitors are expected to convey the distinctiveness of Alpine Hemp Technology — its environmental benefits, technological innovations, and its role in creating sustainable consumer products.

The layout should be intuitive and engaging, guiding the reader through a detailed exploration of the product offerings.

Target audience

Salewa's hemp products are targeted at a diverse range of consumers, segmented primarily by age, geographic location, income level, lifestyle, and education.

- **Audience:** Male 45% / Female 55%
- **Age Range:** 18-35 years old, trend-setters and early adopters of sustainable fashion, and 31 - 50 years old, with higher disposable incomes
- **Middle to high-income Household Income:** € 65,000 – € 100.000
- **Attended/Graduated College:** 70% early adopters
- **Employed:** 30%

Key customer groups

Salewa's hemp products target a diverse audience, including **eco-conscious consumers who prioritise sustainability** and seek products made from renewable resources like hemp.

Outdoor enthusiasts, Trend-setters and fashion-forward individuals who attracted to hemp's unique texture and versatility.

Task to perform

Task 1: The cover of the booklet with the fabric integrated >> 2 hours

Participants are required to design the cover for a Booklet with a closed format of 16 cm x 24 cm. The design must incorporate a 5 x 5 cm piece of supplied hemp fabric in such a way that it is visible and tangible on the exterior of the closed booklet

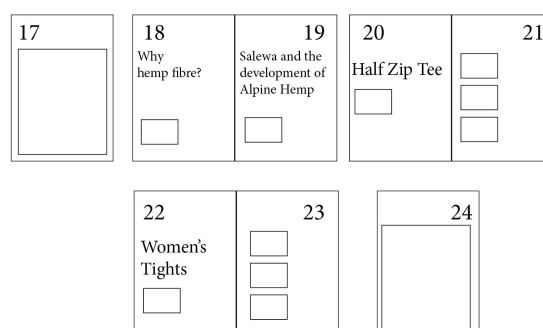

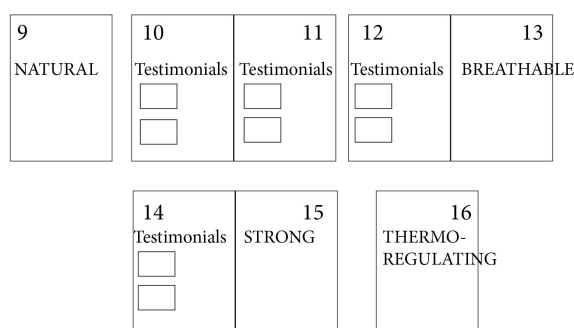

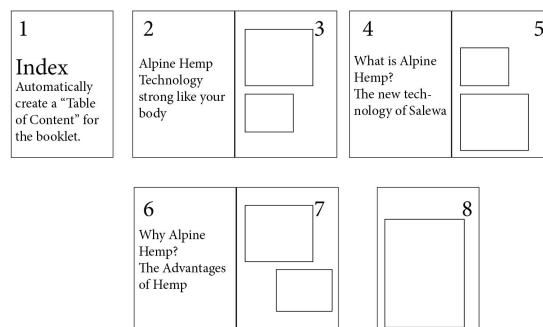

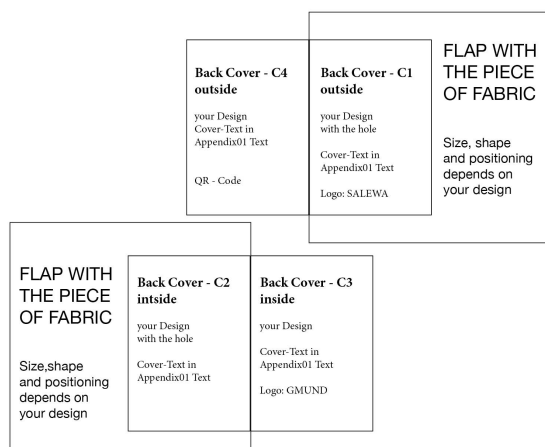

Task 2: Booklet with 24 inner pages >> 3 hours

Task 3: co-ordinated symbol series >> 1 hour

Create four co-ordinated symbols for the following visualisations of adjectives: natural, breathable, strong, thermo-regulating.

Task 1

Present the design of the cover pages within two hours after the competition starts.

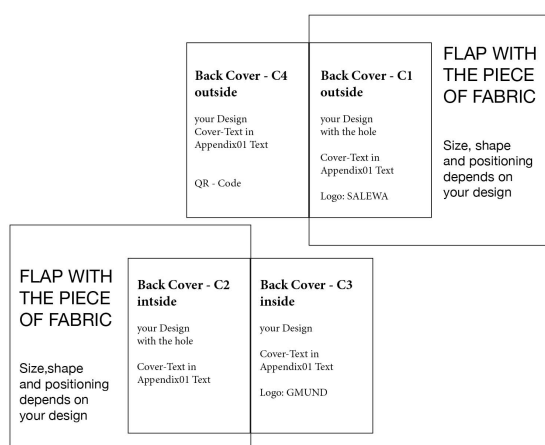

Create: Cover of the Booklet

Participants are required to design the cover for a Booklet with a closed format of 16 x 24 cm. The design must incorporate a 5 x 5 cm piece of supplied hemp fabric in such a way that it is visible and tangible on the exterior of the closed booklet. Designers should devise a creative solution to integrate this fabric element, using a flap whose size, shape, and attachment method are left to the designer's discretion.

Images and text to be included on the cover are specified in "Booklet_Text.docx"; all provided text must be used, and at least one of the provided images must be incorporated. Competitors are encouraged to add their own illustrations or patterns to enhance the design.

Important Note: The design must avoid a close reference to a hemp leaf or its distinctive outline used in Cannabis visualisation. Viewers should not be able to recognise the whole Cannabis leaf. This guideline applies to the entire design of the booklet.

GMUND

Cover requirements

- MUST avoid a close reference to a hemp leaf or its distinctive outline used in Cannabis visualisation.
- Correct arrangement of pages in the layout file (outside one spread, inside one spread). No paragraph styles and page numbers needed.
- fabric (5 x 5 cm) must be fixed on the flap. Part of it must be visible and tangible on the exterior of the closed booklet.
- QR Code: "<https://www.salewa.com/alpine-hemp-men>"
- Saleva Logo Front on Cover C1 (Appendix_03)
- Gmund Logo Inner on Cover C3 (Appendix_03)

Produce: Technical specifications

- Size of cover (closed format): 16 x 24 cm (portrait)
- Size of the cover flap: Up to your design. The given piece of fabric (5 x 5 cm) must be fixed on the flap.
- Colour: cmyk + spot colour for die line. Name the die line: "Die Line front"
- Bleed: 5 mm
- Resolution of the images: 150 ppi (grayscale and colour images effective ppi)
- Colour profile: Uncoated Fogra29
- File name: YY_Booklet-COVER.indd (YY number of your workstation)
- QR Code from 2,4 x 2,4 cm (back colour frame) only 100% black colour

Provide

Digital

- 1 x PDF/X-4:2010 of inside and outside spreads, with bleed, crop marks, fold lines, and the die line (die line on a separate layer).
- Collected folder for print with 1 x INDD, 1 x PDF/X-4:2010, Links, IDML only (no fonts)

Print

- 1 x A3 printout of the back cover, front cover, and cover flap outside as spreads, with bleed, crop and fold marks and die line ONLY. Ensure that you include your competitor number on the back of the mounting board.

Present

Present the design of the cover pages within two hours after the competition starts.

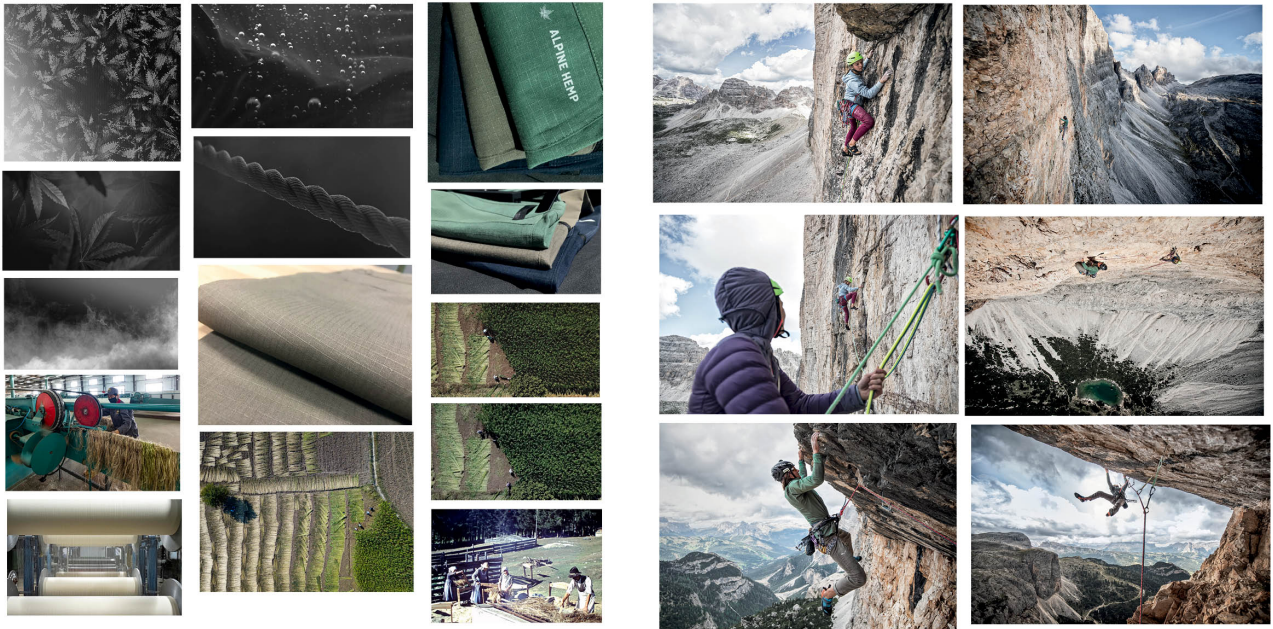

1 x Print and cut out to original size of spread of your cover pages outside (back cover outside, front cover outside, cover flap side of the fixed fabric). Glue and fix it on the provided black board.

Task 2

Create: Inner pages for the Booklet

Create the 24 inside pages of the booklet. Competitors are expected to employ a design strategy that:

- has a coherent colour scheme that reflects the natural ethos of the Alpine environment and the sustainability of hemp.
- typography should enhance readability while also contributing to the Booklet's aesthetic appeal.
- layouts must be well-organized, with a balanced use of space that facilitates a narrative flow.
- The overall design should be variously appealing and functional, clean and simple, ensuring that the information about Alpine Hemp Technology is captivating to the target audience.

Inner pages requirements

Wireframe show the content for each page. Define size and position of elements yourself. The number of pictures inserted must be at least equal to the number of rectangles. Pictures can overlap or flow into neighbour pages, More pictures can also be placed. >> Appendix_02 image Hemp

- The text to be used can be found in Appendix_01 Text. Follow descriptions in red colour and use the text in black colour.
- Pages from 9 to 16 have two spot colours + Black only
- Inside pages of the booklet must start with the number 1.
- Create a "Table of Contents" automatically on page 1.
- Paragraph Styles needed and named: "headline", "title", "subtitle", "text" (case-sensitive)
- Master Page Elements: You must add the following elements
 - Page Number on every page
 - Running Headline: marked in "Booklet_Text.docx"
 - Recurrent design element (if needed on more than 2 pages).

You

- CAN include any additional vector graphics and/or supplied images.
- CAN include additional text.
- CAN change the capitalisation of the text as you wish. Text to be inserted is not case sensitive. Additional text is allowed.

Produce: Technical specifications

- Size of Booklet (closed format): 16 x 24 cm
- Booklet has 24 inner pages
- File name: YY_Booklet-INNER.indd (YY represents the number of your workstation)
- Colour: CMYK
- **Only page 9 to page 16: two spot colours + Black**
- Bleed: 3 mm (only top, bottom and outside)
- Resolution of the images: 179–181 effective ppi InDesign
- Colour profile: Uncoated Fogra29

Provide

Digital

- 1x print ready PDF/X-4:2010 – inside pages as single pages with cropmarks and bleed only
- 1x collected folder ready for print (assembled with cover and inside pages). The INDD Document in this folder will be assessed and the PDF in this folder must include cover and inside pages.

Print

- 1x A3 printout with page 12–13 and 18–19 as spread with bleed, crop marks and fold marks.

Present

- 1 x mock-up for the entire Booklet, including cover and inside pages.

Task 3

Create: Symbols for Visual Adjectives

The Competitors are to create four **coordinated symbols** for the following visualizations of adjectives: **natural, breathable, strong, thermo-regulating**. These symbols should be used on the previously designed layout pages.

Symbols Requirements

- Insert on page 9 (natural), page 13 (breathable), page 15 (strong) and page 16 (thermo-regulating)
- The main focus is on a consistent presentation style. Creativity is more required for the form rather than the expression.
- Must be clearly legible even at a size of 2 x 2 cm. In the layout their sizes can be freely defined

Produce: Technical specifications

- Colour: 1 colour - monochromatic
- Only vector

Provide

Digital

- 1x file with all four symbols on one A3 page. Display each symbol in two different sizes. Once with the longest side max. 2 cm long/tall. Once with the longest side max. 10 cm long/high. >> 4 x 2 symbols on one A3

Print and present

- 1x A3 printout with all four symbolised adjectives (four on one x A3 page) for presentation to the client together with the name text: "natural, breathable, strong, thermo-regulating".
- You **MUST** presented this Printout on the provided black board. Cut the blackboard to a suitable size

Instructions to the Competitor

Document Management

Digital Data on your Computer

Create a folder on your desktop called YY_Name-of-TP_DAY_Z , where YY represents the number of your workstation. "Name of TP" represents one of the 4 Test Projects (e.g. Illustration, Packaging,...) and Z the day of competition (1 to 4). The name of the folder does not contain any blanks.

All working, final and packaged files must be included in this folder. There is no other File or Folder on your Desktop.

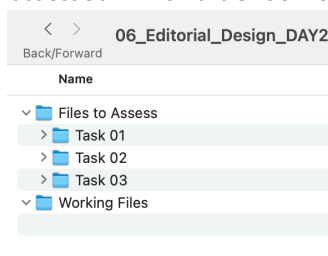

e.g.: 06_Editorial_Design_DAY2

(example for workstation nr. 06 on the second Competition Day)

Files to Assess >> All final and packaged files must be included in the specific "Task n" folder.

e. g.: Task 1, Task 2, Task 3

Working files >> The content of this Folder is up to you. Files and documents in this folder will not be assessed. This folder serves as data storage and to provide a tidy structure in the other folders.

Time Limit

Task 1 must be handed in within **120 minutes**. The total time limit for this test project will be **6 hours**.

Printout

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork).

Marking Scheme

The Mark Summary Form will be either provided during the briefing session on C1 or at your workstation.

Appendix

This Test Project paper will be printed out. To prevent too many pages from being printed, we do not list all appendix documents here. You will find them in the folder on your desktop.
