Briefing of the project

Introduction

About the company SALEWA and EDELRID

SALEWA is a renowned company specializing in high-quality mountain equipment. Known for its innovative and durable products, SALEWA has a strong reputation in the outdoor industry. This test project focuses on promoting their clothing line made from hemp textiles, aiming to boost sales and highlight their commitment to sustainability and quality.

EDELRID, another esteemed brand under the same umbrella, is famous for manufacturing top-quality climbing ropes. Combining the strengths of both brands, this project will involve creating a cohesive promotional campaign that emphasizes the synergy between SALEWA's sustainable clothing and Edelrid's reliable climbing equipment.

Description of the project

WHAT: The objective of this test project is to create a package for marketing promotion that combines the designed brochure from the previous day with a 1-meter long climbing rope from Edelrid. Graphic designers are tasked with designing and creating an innovative and appealing packaging solution that effectively integrates these two components.

WHY: The purpose of this marketing campaign is to leverage the popularity of Edelrid's climbing ropes to boost the sales of Salewa's sustainable clothing line. By associating the high-quality, eco-friendly hemp textiles with the trusted reputation of Edelrid's climbing equipment, the goal is to enhance brand awareness and drive customer interest and sales in the sustainable clothing range.

HOW: This designed package should prominently feature a promotional discount: customers who purchase an Edelrid climbing rope will receive a 20% discount on all clothing items from Salewa's hemp line. The packaging design must effectively communicate this discount offer and encourage customers to take advantage of the promotion.

Target audience

The target audience for this product combination includes:

- **Age Group:** Primarily younger individuals aged 18–35 years.
- **Price Sensitivity:** Customers who are price-sensitive and look for value in their purchases.
- **Interests:** Individuals who are open to innovations, value sustainability, and have a strong connection to nature.
- **Lifestyle:** Active outdoor enthusiasts, climbers, and environmentally conscious consumers.
- **Demographics:** Young professionals, students, and adventure seekers who appreciate quality and sustainable products.

This audience is likely to be attracted by the discount offer and the combination of high-quality climbing equipment with eco-friendly clothing options. They are motivated by both the financial savings and the opportunity to support sustainable practices.

Task to perform

Task 1: Design a packaging with a die line >> 3,5 hours

Design a new package with a focus on showcasing the Edelrid climbing rope..

Packaging Elements: Brochure and Climbing Rope The climbing rope must be securely fixed within the package. It should not be freely moving (as in a bag without any holding mechanism).

Task 2: Layout the inside of the package >> 1,5 hours

Design an engaging and informative layout for the Pack-inside. The layout tells the story "From Hemp to Modern Climbing Ropes."

Task 3: Create a discount coupon to be torn out. >> 1 hour

Task 1

Create: Package Design

The Competitor should design a for a marketing promotion a package with a focus on showcasing the Edelrid climbing rope.

The purpose of this marketing campaign is to leverage the popularity of Edelrid's climbing ropes to boost the sales of Salewa's sustainable clothing line. Therefore you have to combine the designed brochure from the previous day with a 1-meter long climbing rope from Edelrid.

The design should be innovative and visually appealing. Competitors are encouraged to use additional materials, such as illustrations or patterns, created with the tools and resources at their disposal. You could potentially re-use the visuals for the four adjectives from Competition Day 2.

Packaging Elements

Brochure: The package must contain the brochure designed the previous day (Competition Day 2). Use only the cover of the brochure to simulate the size of the brochure.

Climbing Rope: The package must include a 1-meter long Edelrid climbing rope. The rope should be partially visible from the outside. It's allowed the rope extends slightly beyond the package. However, the packaging must be able to close on all sides, ensuring that no side remains fully open.

Design Elements Overview

Exterior Design: The outside of the package should highlight the climbing rope and prominently feature the discount coupon (Task 3) for Salewa's hemp clothing line. The coupon design should reference the brochure from the previous Competition Day 2. It should be more a reference rather than a copy.

Interior Design: This assignment is completed in **Task 2**. However keep in mind the inside of the package should include a layout telling the story "From Hemp to Modern Climbing Ropes." This layout should be engaging and informative, explaining the connection between hemp textiles and modern climbing equipment.

Coupon Design: Note that you need space (out-and inside) for the small coupon as it is printed on both sides (**Task 3**)

Packaging Requirements

All MUST:

- **Fixation:** The climbing rope must be securely fixed within the package. It should not be freely moving (as in a bag without any holding mechanism).
- **Packaging Background:** The client has specified that the background of your packaging design must not be white.
- **Images:** At least two of the provided images. (>> Appendix_02_Images). You may edit and adjust the images according to your design
- **QR Code** for “Check out more:”: <https://www.salewa.com/double-7-9mm-rope-00-0000000446?c=516683>
- **QR Code** for “Want to Learn Even More about Ropes?”: <https://edelrid.com/en/knowledge/knowledge-base>
- **Logo** SALEWA
- **Logo** EDELRID
- **Logo** ICON FSC : FSC_Logo.jpg
- **Logo** Recycle: ICON RECYCLE: RECYCLE_Logo.png

Produce: Technical specification

- Max dimensions of die line within A2 Format: 594 mm × 420 mm or 420 mm × 594 mm
- Bleed for die line: 3 mm
- Colours: CMYK + three different spot colours for die line types
- Name cut lines “Cut lines”, on a separate layer, with a 0.5 pt stroke (not outlined), set to a spot colour, and set to overprint.
- Name fold lines “Fold lines”, on a separate layer, with a 0.5 pt dashed stroke (not outlined), set to a spot colour, and set to overprint.
- Name glue areas “Glue dots”, on a separate layer, using dots (not outlined), set to a spot colour, and set to overprint.
- Four (4) areas with glue dots are allowed for the Package
- Print on both sides of the Package
- All logos and icons in vector format only
- Both ICON (FSC, Recycle) logos must be 100% colour/white. No Gradient nor transparency permitted
- **Resolution** Greyscale and colour image: 150 effective ppi in InDesign and/or Illustrator
- **ICC profile:** ISO Coated v2 300% (ECI)

Provide

Digital

- 1 x final PDF/X-4:2010 compliant file: including die line, bleed data (no bleed marks), colour bars and registration marks. Include your competitor number in a corner of the PDF of each page. Named YY_Package.pdf (case-sensitive, YY represents your competitor number).
- 1 x packaged Adobe InDesign or Illustrator folder for submission that includes links used (no fonts, PDF, IDML).

Print

- 1 x colour printout, scale to fit on A3 with bleed data (no bleed marks), including die line and competitor number outside the artwork area.

Present

- 1 x colour mock-up (without die line), folded and assembled at actual size (100%), Printed on two A3 card stock sheets and fixed together if your design fits on A2. If you encounter problems printing double-sided, you can print each side separately and glue them together.

Task 2

Create: Layout "Hemp Story"

Design an engaging and informative layout for the inside of the package based on the provided text. The layout should effectively tell the story "From Hemp to Modern Climbing Ropes" and harmonise with the overall design of your packaging.

Layout Requirement

- **Text Integration:** The text for the internal layout will be supplied. Ensure it is presented in a visually appealing and readable format. >> Appendix_01_Text: 02-Text-TASK 02.txt
- **Visual Harmony:** The internal layout must complement and integrate seamlessly with the external design of the package. >> Appendix_02_Images
- **Design Elements:** Utilize relevant images, illustrations, and design elements that align with the theme and enhance the storytelling aspect of the layout.
- **Consistency:** Maintain a consistent style, colour scheme, and branding throughout the entire packaging design.

Produce: Technical specifications

- **Paragraph styles:** The entire text must be built on paragraph style templates. At least three different styles must be used and labelled as "Title", "Subtitle", and "Story" (case-sensitive).
- **All text:** The entire provided text must be used. Competitors can set parts of the text in upper case or capitalised case (NOT case-sensitive). Additional letters or spaces can be used to enhance readability.

Ensure the text remains present and readable even after the coupon (Task 3) is removed from the Packaging

- **Images:** only .png and .psd Format allowed
- **Colours:** CMYK
- **Resolution:** Greyscale and colour: 150 effective ppi in InDesign and Illustrator

Provide

Digital

- 1 x A4 page size: Submit the inside layout design in InDesign or Illustrator on one (1) A4 artboard.
- 1 x PDF/X-3:2002 A4 format with your Layout
- 1 x PDF/X-4:2008 inside page of the Packaging with bleed and die line. No extra print marks.

Print

1 x A3 landscape print representing your Hemp Story Layout inside the Package in original size. The rest of your package design can expand beyond the A3 page format.

Task 3

Create: Coupon for a 20% Discount

Competitors are tasked with designing a tear-out coupon that clearly communicates a 20% discount on Salewa's hemp clothing line.

Coupon requirements

Clear Communication: The coupon must prominently display the 20% discount offer on Salewa's hemp clothing, clearly distinguishing it from the climbing rope.

Perforated Line: The coupon should be designed to be easily detachable from the packaging via a perforated line. This line must be clearly distinguishable so that the customer realises that the coupon is detachable.

Visual Integration: Ensure the coupon design harmonises with the overall packaging design but can be easily distinguished as extra part.

Non-interference: Ensure that the coupon design does not overlap or interfere with the internal story layout.

The following elements must be included in your Coupon layout:

- Include the company logo Salewa from Task 01
- Include the Coupon TEXT. Additional text allowed. >> Appendix_01_Text: 03-Text-TASK 03
- Generate and include the QR-Code: <https://salewa.com/hemp-collection>
- You CAN use any of the supplied images or create your own Illustrations >> Appendix_02_Pack Images

Produce: Technical specifications

- Colour: CMYK + die line (perforated line).
- Bleed: 0 mm (no Bleed)
- Size: 55 x 85 mm (portrait or landscape)
- Layout: double sided and graphic elements on both sides can overlap the coupon and merge into the packaging design.
- QR-Code only 100% Black and 23 mm in size (from edge to edge of the black part - exact)

Provide

Digital

1 x final composite PDF/X-3:2002 file (including bleed, colour bars, crop marks and die line)

Print

1 x A4 double-sided printout of the Coupon on at 100% size together with the perforation line and parts of the surrounding packaging design

Present

2 x single-sided printout. 1 x side A and 1 x side B of the coupon, cut to the correct size and placed on the black board supplied. Cut the blackboard to a suitable size.

Instructions to the Competitor

Document Management

Digital Data on your Computer

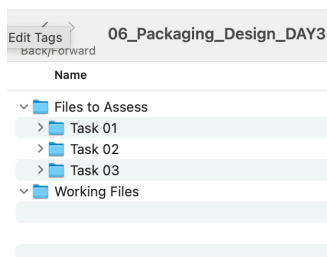

Create a folder on your desktop called YY_Name-of-TP_DAY_Z , where YY represents the number of your workstation. "Name of TP" represents one of the 4 Test Projects (e.c. Corporate Design, Packaging, ...) and Z the day of competition (1 to 4). The name of the folder does not contain any blanks.

All working, final and packaged files must be included in this folder. There is no other File or Folder on your Desktop. (example for workstation nr. 06 on the first competition Day)

e.g.: 06_Packaging_Design_DAY3

Files to Assess >> All final and packaged files must be included in the specific Task nÓ folder.e.g.: Task 1, Task 2, Task 3

Working files >> The content of this Folder is up to you. Files and Documents in this folder will not be assessed. This folder serves as data storage and to provide a tidy structure in the other folders.

Time Limit

The total time limit for this test project will be **6 hours**.

Printout

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork).

Marking Scheme

The Marking Summar Form will be either provided during the briefing session on C2 or at your workstation.

Appendix

This Test Project paper will be printed out. To prevent too many pages from being printed, we do not list all appendix documents here. You will find them in the folder on your desktop.
