Briefing of the project

Introduction

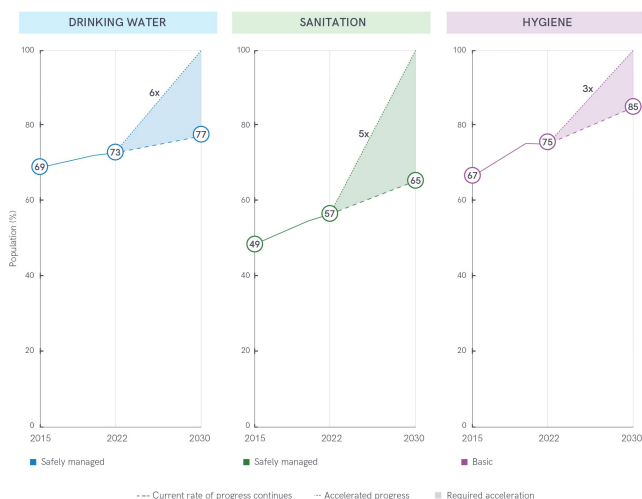

The United Nations Water (UN-Water) coordinates the UN's efforts on water and sanitation issues for a better world. Following the last United Nations Water Conference held in March 2023, the forthcoming conference scheduled for 2026 is expected to accelerate the **implementation of Sustainable Development Goal 6 (SDG 6)**, which is dedicated to ensuring the availability of clean water and sanitation. Currently, almost three-quarters of the world's population have access to a safely managed water source. However, **if progress continues at the current slow pace**, the objective of achieving universal and equitable access to safe and affordable drinking water by 2030—outlined in SDG Target 6.1—**will not be met**.

According to the report “Progress on household drinking water, sanitation and hygiene” published in 2023, **between 2015 and 2022**, the global population with safely managed drinking water at home **increased from 69% to 73%**; safely managed sanitation services **grew from 49% to 57%**; and hand washing facilities with soap and water **increased from 67% to 75%**.

Stark socio-economic inequalities, along with the impacts of climate change, continue to **disproportionately affect less-privileged populations**, often **excluding them from basic access to water, sanitation, and hygiene facilities**.

To support the ambitions of UN-Water, competitors are invited to create a visual campaign in the form of a poster series for display in public spaces. This initiative calls on graphic designers to **use their visual voice to mobilise action and drive collective efforts toward fulfilling the SDG targets**. #WaterAction #Goal6

FIGURE 1: Global coverage of WASH services 2015-2022 (%), and acceleration required to meet targets by 2030

Objective of the Test Project

WHAT: The campaign aims to design a series of impactful posters to be displayed in public spaces, drawing on data to create a compelling visual narrative.

WHY: With the current trajectory indicating that Sustainable Development Goal Target 6.1 may not be achieved by 2030, this campaign seeks to galvanise public support and action. The objective is to communicate the urgency of escalating efforts to ensure universal and equitable access to safe and affordable drinking water.

HOW: The posters should present the information in an engaging and intelligible manner, highlighting the pressing nature of the issue. They should also incorporate a clear call to action, inspiring individuals and groups to contribute to the momentum needed to meet the SDG targets effectively. #WaterAction #Goal6

Target audience

The campaign aims to bring fresh perspectives, draw attention to water-related issues, and influence a broad audience to act towards the SDG Target clean water and sanitation.

The targeted age group includes adults aged 25 to 64, who might not yet be aware of the challenges presented by water and sanitation issues.

This demographic consists of working professionals, parents, and community leaders who are pivotal in implementing change both at personal and societal levels. By engaging this group, the campaign seeks to foster informed decision-making and enlist influential advocates for sustainable water practices.

Task to perform

Task 1: Create a poster campaign

>> 2 hours

The posters should visualise the data represented in the graph (see Appendix_01) in a more compelling and comprehensive way, beyond a simple representation of data in a diagram or pie chart. It is important to **highlight the gap** between the set target and the estimated progress by 2030 and **emphasize the acceleration** required to meet the target by 2030.

Task 2: Create visualizations of the posters in public space

>> 2 hours

Project Overview: In this task, candidates will create three dynamic screen animations for a public advertisement display, envisioning their impact on Times Square in New York City. Each animation will integrate key visuals from the posters developed in Task 1, focusing on essential messaging elements.

Task 1

Present the Poster in real environment within 2,5 hours after competition starts - for assessment

Create: poster campaign (3 posters)

In this task, you will conceptualise and design a poster campaign with a series of posters aimed at raising public awareness and mobilising action towards achieving SDG Target 6.1. Your posters should communicate the urgency of ensuring universal and equitable access to safe and affordable drinking water while encouraging viewers to engage with the #WaterAction #Goal6 initiative.

The posters should visualise the data represented in the graph (see Appendix_01) in a more compelling and comprehensive way, beyond a simple representation of data in a diagram or pie chart. It is important to **highlight the gap** between the set target and the estimated progress by 2030 and **emphasise the acceleration** required to meet the target by 2030.

Poster requirements

- MUST create infographics so that the 3 posters work well together, as well as separately
- MUST use all the required/supplied text and data in table 01-Text-TASK 01.xlsx in Appendix_01
- MUST use **main title** for all three posters: (USE TEXT IN RED COLOUR)
- **Open the Tap: Water Equity Now!**
- **Subtitle Poster 1: Safe drinking water**
- **Subtitle Poster 2: Safe sanitation services**
- **Subtitle Poster 3: Safe hygiene facilities**
- MUST incorporate the UN-Water logo and campaign hashtags in a prominent but non-intrusive manner.
- Typography: Ensure readability from a distance; typeface selection should be legible and compliant with accessibility guidelines (see Appendix_02>> How to Use Font Effectively), if applicable.

Produce: Technical specifications

- **Document Size (flat):** exactly 25 inches (width) × 35 inches (height)
- **Document format:** Adobe InDesign and/or Adobe Illustrator
- **File naming:** YY_Poster_Drinking.zz, YY_Poster_Sanitation.zz, YY_Poster_Hygiene.zz (case-sensitive, YY represents your competitor number and zz your document suffix)
- **Resolution:** Only vector
- **Colour Mode:** CMYK
- **ICC Colour Profile:** PSUncoated_v3_FOGRA52i.icc >> Appendix_02

Provide

Posters should be shown in a real environment

Copy this completed document (refer to Present) within 150 minutes (2.5 hours) after the start of the competition into the "File to Assess" folder specified in the briefing.

Digital

- 1 x PDF/X-4:2010 of each poster (3 different documents) with crop marks only
- Collected folder for screen presentation with 1 x original File (IDD or AI), 1 x PDF 1.5 (smallest File Size) sRGB IEC 61966-2.1, Links, IDML only (no fonts)

Print

- 1 x A4 sheet of each poster (3 different printouts): scale to fit on A4 with with all printer's marks
- 1 x A3 landscape sheet: place the posters next to each other, scale to fit on one A3 sheet
- 1 x A3 sheet: Print a part of one of your posters in original size on A3 format to show the customer the text in real size.

Present

The effect of the posters should be shown in a real environment. Present the 3 posters on the poster wall below (see Appendix_02). Fill up all 7 poster placeholders by placing your 3 poster designs. All placeholder areas should be occupied, the same designs can be placed multiple times.

Print the result scale to fit on A3 sheet of paper within 2,5 hours after competition starts for assessment

Task 2

Create: Urban Screen Animation Showcase

Project Overview: In this task, candidates will create three dynamic screen animations for a public advertisement display, envisioning their impact on Times Square in New York City. Each animation will integrate key visuals from the posters developed in Task 1, focusing on essential messaging elements.

Task Description: Candidates are required to produce animations for three designated advertising spaces marked on the provided image (see Appendix_03). Each animation will consist of 3 to 5 slides. The animation sequence will be derived from the posters created in Task 1. These sequences should effectively convey the core messages of the posters in a visually compelling way.

Animation requirement

- **MUST** create an animation sequence for each poster from task 01
- **MUST** adjust layout and composition to spread the contents across 3 to 5 slides for each animation
- **CAN** include transitions and movement on and of slides
- **MUST** showcase each animation in a different advertisement space at Times Square
- **MUST** create one video compilation featuring all three animations, suitable for social media platforms including TikTok
- **Duration of video compilation:** Between 00:12–00:15 seconds

Additional Notes:

- The animations should demonstrate creativity, technical proficiency, and a clear understanding of visual storytelling.
- Emphasis should be placed on the seamless integration of animated elements with real-world urban environments.

Produce: Technical specifications

Time Square image with a preview of the 3 poster areas

- Generate a non-destructive Photoshop or After Effects File
- Use vector smart objects for all imported elements
- Resolution: 144 ppi
- Canvas Size: 19.05 × 33.87 cm

Video

- Aspect Ratio: Vertical (9:16)
- Resolution: exact 1080 × 1920 px (Full HD)
- Frame Rate: 30 frames per second (fps)
- File Format: MP4
- File Size: Maximum 287.6 MB
- Naming of the File: "YY_SDG6_campaign" (YY represents your competitor number)

Provide

Digital

- 1 × MP4 File
- 1 × Photoshop .psd layered file or After Effects .aep working project native file, packaged and including linked files and fonts.

Print

- 1 × A3 portrait: Print one frame from your video (the mock-up compilation) and the Name-Tag: YY_SDG6_campaign. (YY represents your competitor number).

Present

To show the animation to your client, save it as a video file in an extra folder called "Video"

- 1 × RGB video format: MP4 file type.

Instructions to the Competitor

Document Management

Digital Data on your Computer

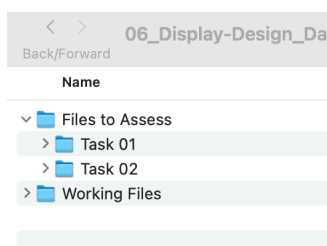

Create a folder on your desktop called YY_Name-of-TP_DAY_Z , where YY represents the number of your workstation. "Name of TP" represents one of the 4 Test Projects (e.g. Corporate Design, Packaging,...) and Z the day of competition (1 to 4). The name of the folder does not contain any blanks.

All working, final and packaged files must be included in this folder. There is no other File or Folder on your Desktop. (example for Workstation nr. 06 on the first competition Day)

e.g. : 06_Display-Design_DAY4

Files to Assess >> All final and packaged files must be included in the specific "Task n" folder. e.g.: Task 1, Task 2

Working files >> The content of this Folder is up to you. Files and Documents in this folder will not be assessed. This folder serves as data storage and to provide a tidy structure in the other folders.

Time Limit

All tasks must be completed within **4 hours**.

Printout

You must include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork).

Marking Scheme

The Mark Summary Form will be either provided during the briefing session on C4 or at your workstation.

Appendix

This Test Project paper will be printed out. To prevent too many pages from being printed, we do not list all appendix documents here. You will find them in the folder on your desktop.
