DESCRIPTION OF PROJECT AND TASKS

Replas have become a far more well-known brand recently due to exposure from a television series regarding the environment. Prior to this, their most common clients were local council and government departments. Their business is expanding and they require a new visual identity that will appeal to a wider audience.

Their target audience will still include local councils and government departments — but will also need to appeal to middle to high income families, as well as international government organisations. All audiences are concerned with the environment and require durable, long lasting products which can endure challenging environments (for example: they may be close to salt water, or in hot climates).

Replas wurde in letzter Zeit aufgrund der Ausstrahlung einer Fernsehserie in Bezug auf die Umwelt, zu einer bekannteren Marke. Davor waren die meisten ihrer Kunden lokale Behoerden und Regierungs-Abteilungen. Ihr Geschäft expandiert und sie benötigen eine neue visual identity welche auf eine größere Zielgruppe abgestimmt ist.

Ihre Zielgruppe beinhaltet nach wie vor lokale Behörden und Regierungsabteilungen - aber Replas möchte auch Familien mit mittlerem und höherem Einkommen ansprechen, sowie auch internationale Regierungs-Organisationen. Alle Zielgruppen sind auf Umwelt bedacht und die Erfordernisse an haltbare, langlebige Produkte, speziell bei anspruchsvollen Umweltbedingungen (z.B. Nähe zu Salzwasser, oder heißes Klima).
