#myFKeffect – Ly Bui

*Paragraph Style: Title*

Participating in the FK exchange programme is an eye-opening experience for me

*Paragraph Style: Body*

Ly Bui has been on exchange in Kathmandu for almost eight months. For her, the most significant lesson is how different regions, cultural values and social norms deeply influences people's health practices. This makes it different and challenging to work in Nepal compared to her home country, Vietnam. She has to take various factors into account when designing and implementing health programmes.

*"I have become more culturally sensitive and more open-minded when working with communities. I know to appreciate what I have and how to work more effectively in a team",* says Ly when she describes her most prominent #myFKeffect.

Project: Improving Health of low income women in Nepal and for Vietnam

Partners: Integrated Rural Health Development Training Centre (IRHDTTC) and Life Centre

FK participant: Bui Thi Phan Ly from Ho Chi Minh city, Vietnam, age 30.

Exchange: Vietnam and Nepal

Year: 2017

Ly has met some challenges during her exchange. When visiting projects in remote parts of Nepal she witnessed how people struggle to meet basic needs. Many people stress to provide food, shelter and medicine for their families. This is something most people take for granted, Ly says. She believes that to end poverty, education and women empowerment is the key.

During her exchange, she has learned several beneficial skills she can use in the future. Except from enhancing her skills on writing research proposals, collecting data and writing reports, she has learned how determinants of health factors impacts people's lives. She wants to use this knowledge when she goes back to Vietnam to design and implement effective health programs.

The project aims to improve the maternal health of poor rural women in Nepal and Vietnam. They are also striving to improve reproductive health for female factory workers, prevent HIV transmission among men having sex with men and provide support to people living with HIV. In a country like Nepal, where about 25% of the population still live in extreme poverty and the caste system is highly present, women empowerment is limited. Therefore, this project is not only existing, but vitally important to achieve development.

Ly's advice to young people who want to go on exchange, is not to be afraid of stepping out of your comfort zone! She also emphasizes the importance of staying positive, have a non-judgmental attitude and to be genuine in all your pursuits. *"If you have a passion, try your best to pursue it. No matter how hard your situation might be, you either achieve your goal or learn something from it".*

#myFKeffect – Marte Steiro

*Paragraph Style: Title*

*It is important to respect and accept*

*“My exchange has made me understand individual differences, qualities and experiences that makes us who we are, and that, essentially, people need people”*

*Paragraph Style: Body*

*“It is important to respect and accept other people, cultures and environments to be able to add value to your own life”, says Marte Steiro from Lier, Norway. Currently in Harare, Zimbabwe, Marte is participating in the programme **Young Advocates for Change 2017 (YAC)**. Working at YAC gives her an opportunity to use her leadership skills to engage in advocacy work at community level. This way arenas for young people are created to freely discuss issues that affects them and to feel empowered. Marte delivers training and reaches out to new members and stakeholders.*

The programme offers personal development and life-changing experience to the participants as well as supporting African communities to make positive changes for young people. It is based on the African Alliance of YMCA’s philosophy of **Subject 2 Citizen (S2C)**. The S2C initiative is designed to unlock the potential of young people and equip them with the skills and confidence to transform themselves and other young people.

Marte holds a degree in Development and African Studies. With this exchange programme she believes she is one step closer to her goal - a career within the development sector. Her exchange has given her a better understanding of individuals and diversity, conflict management skills and the value of team work.

This experience has been life changing for Marte. Her advice to young people who want to go on an exchange programme is to believe in yourself, your commitment, courage and confidence. Believe that the positive change is achievable. Believe that you can develop and train others to change. *“And that we together can change the future of our communities, countries, continents and the world.”*
