Test Project Module 4

Package Design

Submitted by:

Michael Karmelius Kristiantowi

Ganjar Satrio

CONTENTS

This Test Project contains the following documentation/files:

1. Module 4 Package Design
2. Text/Appendix Folder
3. Chockies Logo Template
4. Images Folder
5. Barcode Folder
6. Recycle Folder

INTRODUCTION

Cocoa is one commodity that can contribute to increase the foreign exchange currency for the national economy. Indonesia is one of the world's major cocoa suppliers after Ivory Coast (38.3%) and Ghana (20.2%) with a 13.6% percentage. By cultivating Cocoa into a quality product in the country then we have been able to deposit money to the state's finances by around 5% or USD 200 / ton of each export of Cocoa beans.

The development of cocoa plants in Indonesia, especially in Java runs rapidly. In 1938 there were 29 cocoa plantations with 13 plantations in West Java, 7 plantations in Central Java, and 9 plantations in East Java. The development is also encouraged by the widespread diseases of rust coffee leaves by *Hemileia vastatrix*, causing the destruction of coffee plantation area in Java that forces them to plant cocoa instead.

In Indonesia, there are chocolate products with foreign markets (international). **Chockies** is a Chocolate-Cookies from Indonesia. A mix of chocolate and crispy cookies with 6 flavours, Original, Cheese, coffee, tiramisu, strawberry and Matcha. These cocoa beans are produced and become snack products, which are ready to accompany anyone, especially young people when they are hungry during activities.

Chockies needs a stand out packaging, with the main concept is fusion (chockies flavours), the packaging structure look like "twister" to represent the fusion and hexagonal shape to represent 6 stories of flavour.

DESCRIPTION OF PROJECT AND TASKS

Project:

1. Create a Correct & Duplicate Packaging Structure
 2. Create a Package Design
- s

Target group:

- **Age:** 15 - 30
- **Sex:** Male and Female
- **Nationality:** International
- **Social Class:** Middle Class to Upper Class
- **Personal Attributes:** Chocolate & cookies lover, young people, like to eat, friendly, easy going to everywhere.

INSTRUCTION TO THE COMPETITOR

- Create a folder on your Desktop called **YY_MOD4** (YY represents the number of your workstation).
- This folder must include the following 2 subfolders:
 1. A folder named **“Final”**: it should contain all of the final files in subfolders **Task 1 and Task 2** with PDF, ICC profile, native files, fonts and linked images.
 2. A folder named **“Original”**: it should contain other files that are not final files used for creating your design.
 3. You **must** include your workstation number on the presentation board and printouts for marking and delivery to your workstation (the number should be included outside of the artwork area)
 4. The colour mode of your images will be evaluated in the PDF files.
 5. The final resolution and file formats will be assessed in the vector files.
 6. The JPG file format is NOT ACCEPTED for images. Only the following file formats are acceptable. TIF / EPS / AI / PSD / DSC 2.0
 7. Tasks must be created in Adobe Illustrator (Logo & Badges), and Photoshop (collage/montage images).
 8. Images must not be embedded in Adobe Illustrator.
 9. You must use ALL of the text provided for each task as specified.
 10. You must use ALL of the images specified as per the tasks and you may create any additional raster or vector elements.

Time limit for this test project

The Test Project must be completed in **4 hours**.

(when the time is up, the computer will automatically lock)

TASK 1: PACKAGING STRUCTURE

Duplicate a Packaging Sample from mock up to correct the structure

Target audience

- Printing Vendor
- Company Partner

Requirements for Package

These elements from **Appendix 2** must be included in your package design.

- Packaging structure must be correct (100%) from the sample
- Define the **dieline** for packaging structure.
- **Dieline** include **cut line**, **fold line** and **glue area**
- Use **Spot Color** for **Dieline Plate**

Technical specifications:

Max Dimensions of Packaging Structure	: 297 mm x 420 mm (A3 flat) design Dieline
Bleed for dieline (if necessary)	: 3 mm
Clear window	: You must have clear window to show the product from outside the package
Colors	: CMYK + Dieline plate (name: Dieline) (Cut line, Fold line and Glue Area)
ICC Profile	: Coated GRACol 2006 (ISO 12647-2:2004)

You must deliver:

Folders as specified in “Instructions to the Competitor”. **Only files from these folders will be assessed.**

- 1 final native (AI) file.
- 1 final composite PDF/X-4:2010 file including dieline on one separate layer, bleed, color bars and registration marks only.

TASK 2: PACKAGE DESIGN

Design a package of **Chockies**, Chocolate and Cookies for anyone who love chocolates especially chocolate & cookies lovers in Indonesia who wants **Chockies** for a snack and a friend who always accompanies when hungry. One package contains all 6 flavours The package should be paper container and creatively design that show both informative and marketable. Overall design must be inspired by the art, culture, colours and history of Indonesian Cacao.

Requirements for Package

These elements from **Appendix 2** must be included in your package design.

- The logo should be in vector and colour can be replaced, appropriate to the concept, product and target market.
- Images: Use minimum of 2 supplied images on your package design (Images Folder), you may combine and edit the images according to your design, however, they must remain raster.
- Include CMYK brand logo (Chockies Logo Template)
- Include Barcode: the size needed is width 35 mm x height 26 mm and must be 100% K (Barcode Folder)
- You may create your own illustrations for the package design to represent Indonesia/Product/Flavour/Concept
- Essential Package Symbol to be included in Vector-Format only: Recycle (Recycle Folder)

Technical specifications:

Max Dimensions of Package Design	: 297 mm x 420 mm (A3 flat) design dieline
Dimensions of barcode	: 35 mm x 26 mm
Bleed for dieline (if necessary)	: 3 mm
Clear window	: You must have clear window to show the product from outside the package
Colors	: CMYK + dieline plate (name: Dieline) (Cut line, Fold line and Glue Area)
ICC Profile	: Coated GRACol 2006 (ISO 12647-2:2004)
Ink density	: 350%
Trapping (if necessary)	: 0.4 pt
Grayscale and Color image Resolution	: 280 – 300 ppi 100%
Bitmap image Resolution	: 600 – 1200 ppi 100%

Note: You MUST NOT embed images in Illustrator

You must deliver:

Folders as specified in “Instructions to the Competitor”.

Only files from these folders will be assessed.

- 1 final native (AI) file.
- 1 final composite PDF/X-4:2010 file including dieline on one separate layer, bleed, color bars and registration marks only.
- 1 printout file PDF of your design at 100% on A3 with bleed, dieline, color bars and registration marks only.
