CONTENTS

This Test Project proposal consists of the following documentation/files:

- | | |
|--|---|
| 1. WSC2011_TP40_Module_2_pre_EN.doc | |
| 2. WSC2011_TP40_Module_2_pre_EN | (folder containing pictures and ICC profiles) |
| 3. WSC2011_TP40_Module_2_pre_02_EN.rtf | (text file for the banner) |
| 4. WSC2011_TP40_Module_2_pre_03_EN.rtf | (text file for the flyer) |
| 5. WSC2011_TP40_Module_2_pre_04_EN.rtf | (text file for the certificate) |

INTRODUCTION

In 1897, a ship called Belgica left Antwerp for the first purely scientific expedition ever sent to Antarctica. Adrien de Gerlache, a Belgian navy captain and his crew (9 Belgians, 6 Norwegians, 2 Poles, 1 Romanian, 1 American) were the first human beings to stay on the white continent for an entire winter. The ship remained prisoner of the ice for about 12 months and drifted for 3200 kilometers before being released.

The expedition returned to Belgium with an important scientific harvest covering many areas (biology, botany, glaciology, geology and many more).

In 2007, one century after the departure of the Belgica for his journey to Antarctica, a non-profit association called New Belgica was created. The aim of this association is to build a replica of the Belgica.

DESCRIPTION OF PROJECT AND TASKS

The association needs to build an identity that will be used consistently through all its documents. Your job is to create this corporate identity; with colors, photos and illustrations, typefaces, etc. This will be applied to several promotional items including a banner, template for flyers and certificate.

The keywords for the whole project are “Historic, social and sustainable”, the first one, also referring to the adventurous and risky exploration of a then unknown region.

The client has asked that the approach to be clean and simple.

Target audience

Businesses, organisations and individuals who may be interested in supporting The New Belgica.

Task 1: logo

The New Belgica ask you to create a logo for the project. The logo needs to embody the ideas of Historical, social and sustainable and to be attractive to potential supporters of the organisation.

The logo must include the complete name “The New Belgica”. You must provide a version in 1 spot colour (to be applied on wooden boxes, etc.) and a CMYK version. You may slightly alter the appearance of your one colour logo in your full colour version as long as the concept stays similar.

Technical specifications:

Colours: one version of the logo in 1 spot colour, one version in CMYK

Printing: offset lithography

Trapping: 0.3 points

You must deliver:

- 1 final folder of your working files for archiving
- 1 eps file of your logo in 1 spot colour
- 1 eps file of your logo in CMYK

Task 2: large format banner

You have to create a banner that will be placed on the front of the main hall of the shipyard. It's objective is to raise awareness of The New Belgica project.

The banner must include your logo, a QR code leading to the website of the association and the text contained in the file WSC2011_TP40_Module_2_pre_02_EN.rtf. You also have to use at least two of the provided pictures but you are free to resize, combine, modify or alter them in any way that suits your design.

Text:

The New Belgica vzw

In Boom, unemployed people are rebuilding the legendary polar ship of Adrien de Gerlache

www.newbelgica.org

Technical specifications:

Dimensions : 300 cm X 200 cm (landscape)

Bleed: 5 mm

Colours: CMYK

Printing: large format printer Agfa: Anapurna M2050

ICC profile: M2050_4Pass_DS_Bi.icc

Screening: stochastic (non-periodic)

Greyscale and colour images resolution: from 50 to 72 PPI

Bitmap images resolution: from 100 to 150 PPI

Trapping: none

You must deliver:

- 1 final composite PDF/X-1a:2001 file (including bleed, crop marks and specified output profile)
- 1 final folder for archiving (including native files, fonts, linked images)
- 1 printout of your composition printed on an A3 scale to fit with bleed, crop marks.

Task 3: Flyer

Another document that you have to create is a flyer that will be used when they need to announce an event. The size will be 15 X 10 cm landscape.

The front side will be your design of the banner exactly.

The information on the back will be added according to the needs of a specific event. You will have to use the text available in the file WSC2011_TP40_Module_2_pre_03_EN.rtf, your logo and the provided QR code (at a size of at least 30 mm).

Text for the back:

The New Belgica vzw

In Boom, unemployed people are rebuilding the legendary polar ship of Adrien de Gerlache

Come and visit the shipyard!

Noeveren, 26 – 2850 Boom – Belgium

www.newbelgica.org

Technical specifications:

Dimensions : 15 cm X 10 cm

Bleed: 3 mm

Colours: CMYK

Printing: offset

ICC profile: ISO Coated v2 300%

Greyscale and colour images resolution: from 225 to 350 PPI

Bitmap images resolution: from 800 to 1200 PPI

You must deliver:

- 1 final composite PDF/X-1a:2001 file (including bleed, crop marks and specified output profile)
- 1 final folder for archiving (including native files, fonts, linked images)
- 1 printout of your composition (front and back) trimmed and mounted on a board for presentation.

Task 4: Certificate

Create an A3, full colour, one-sided certificate to be given to all the partners of the projects (local communities, supporting companies, individual volunteers, etc.). The client would like to have a design (compliant with the identity created by you) associating tradition and modernity, maybe with one part imitating the design of an old certificate from the end of 19th century, one part with a more contemporary look.

The certificate must include your logo and the text available in the file
WSC2011_TP40_Module_2_pre_04_EN.rtf

Text (the words between brackets are to be replaced by empty spaces):

“We are a proud partner of The New Belgica Project”

With the support of [Name], unemployed people are rebuilding the legendary polar ship who, between 1897 and 1899, were the first to spend a whole winter in Antarctica, conducting innovative scientific research. The New Belgica will travel the seven seas as an ambassador to raise awareness about climate change.

For The New Belgica association,
[Name and Title]
[Signature]

Technical specifications:

Dimensions : A3 landscape

Bleed: 3 mm

Colours: CMYK

Printing: offset lithography

ICC profile: ISO Coated v2 300%

Greyscale and colour images resolution: from 225 to 350 PPI

Bitmap images resolution: from 800 to 1200 PPI

You must deliver:

- 1 final composite PDF/X-1a:2001 file (including bleed, crop marks and specified output profile)
- 1 final folder for archiving (including native files, fonts, linked images)
- 1 printout of your composition mounted on a board for presentation (scaled to fit on A3).

INSTRUCTIONS TO THE COMPETITOR

About image marking for all tasks:

The final resolution, colour mode and file formats of your images will be evaluated in the press ready PDF files. The JPG file format is NOT ACCEPTED for images files (outside of the PDF); only the following saving format files are acceptable: .tif / .eps / .ai / .psd / .dcs

MARKING SCHEME

Subjective (10 marks)

A (2 marks)

A.1 Ideas and originality (all tasks)	1.00
A.2 Understanding the target market (all tasks)	0.50
A.3 Unity and relationship between all tasks (all tasks)	0.50

B (8 marks)

B.1 Quality of the visual composition (Banner, flyer and certificate)	2.00
B.2 Impact of the design (Banner, flyer and certificate)	1.00
B.2 Impact of the design (logo)	1.00
B.3 Quality of the typography (Banner, flyer and certificate)	0.50
B.3 Quality of the typography (logo)	0.50
B.4 Quality of the colours (flyer and certificate)	0.50
B.4 Quality of the colours (logo)	0.50
B.5 Quality of image manipulation (retouch, cloning, blending, colour adjustment, etc)	1.00
B.8 Quality of the mounted presentation (flyer and certificate)	1.00

Objective (15 marks)

C (4 marks)

C.1 Resolution of linked, embedded or original images as required in the task (banner)	0.50
C.1 Resolution of linked, embedded or original images as required in the task (flyer and certificate)	0.50
C.2 Colour mode of linked, embedded or original images as required in the task (all tasks)	0.50
C.5 Final dimensions of layout as required in the task (all tasks)	0.50
C.6 All required text is present (all tasks)	1.00
C.7 All required elements are present (all tasks)	1.00

D (2 marks)

D.2 Mounting printouts on board for presentation (flyer and certificate)	2.00
--	------

E (4 marks)

E.1 Bleed value applied in layout file or PDF (all tasks)	1.00
E.2 Trim and registration marks supplied (all tasks)	1.00
E.4 Spot and CMYK colours used in layout or PDF file as required in the task (all tasks)	2.00

F (5 marks)

F.2 ICC profile in images, PDF or layout file as required for the task (flyer and certificate)	1.00
F.2 ICC profile in images, PDF or layout file as required for the task (banner)	1.00
F.3 Saving in a specified PDF format as required for the task (all tasks)	2.00
F.5 Final production folder saved as required for the task (all tasks)	1.00
